

# IDBI FUNDS

*Dear Friends,*

Greetings for the festive season!

I am happy to share with you the success of IDBI Prudence Fund's New Fund Offer (NFO). We have collected around Rs. 230 crores in the NFO across India from both, retail and institutional investors. I extend my personal thanks to you all for the enthusiasm and support which this

NFO has received from you.

Most of you would be planning your investments for tax-saving purpose around this time of the year. I draw your attention to IDBI Equity Advantage Fund (IEAF), a tax-saving scheme from IDBI Mutual Fund. The Scheme is an open-ended Equity Linked Savings Scheme (ELSS) offering income tax benefits under Section 80C of the Income Tax Act, 1961. Comparatively lower lock in period vis-à-vis other tax saving

instruments and opportunity for growth by way of investment in equities and equity related instruments make ELSS an attractive tax saving option. IEAF is a three year old Fund, details of which you will find in this Factsheet.

Plan your finances judiciously, bearing in mind your financial goals, so as to maximise your return to achieve those goals. In case of further clarification, please seek guidance from financial advisor.

Happy investing!

Sincerely,

**Dilip Mandal** (DIN: 03313130)  
Managing Director and CEO

## Equity Market Overview

Equity markets were fairly stable during the month of October. Sensex & Nifty ended up by 0.23% & 0.17% respectively. Globally, major Asian indices performed strongly with Nikkei & Shanghai ending up by 5.9% & 3.2% respectively. Nasdaq showed weakness as it corrected by 2.3% during the month as investors remained cautious over a possible rate hike by the US Fed in December and uncertainty over the presidential elections on the 8th of November.

October saw the newly constituted Monetary Policy Committee (MPC) decide on rates for the very first time. All 6 members of the committee including new RBI governor Mr. Urjit Patel voted for a cut in the repo rate by 25 bps to a 5 year low of 6.25%. The RBI also lowered the real interest rate guidance from 1.5-2.0% previously to 1.25%. It also maintained its accommodative stance on monetary policy. CPI inflation of 4% is now a 5 year target as against the previously set deadline of March 2018. RBI however cautioned on the upside risks to inflation arising out of 7th Pay commission, GST implementation & other unanticipated shocks.

Amongst sectors, Oil & Gas (+8.3%) was the outperformer during the month along with Metals (+5.7%) as commodity producers benefitted from strengthening prices. The telecom sector remained under pressure subsequent to the launch of Reliance Jio. Jio's strategy of luring subscribers with free voice & data is forcing existing telecom operators to cut tariffs to retain their market share. IT sector too was under pressure as most of the IT companies came out with weak results as well as muted revenue guidance going forward.

For the month of August, IIP declined 0.7% versus a decline of 2.4% in the previous month. The decline was largely due to contraction in mining activities (-5.6%) and a slight decline in manufacturing (-0.3%). Although manufacturing declined by 0.3%, the decline was not broad based but concentrated within a few segments. Basic goods posted a decent 3.2% growth & intermediate goods grew by 3.6%. Capital goods declined by ~22%--it's 10th consecutive month of decline. Thus, YTD (April - August 16) IIP declined by 0.3%

Trade Deficit in September was ~US\$ 8.3 Bn v/s 7.7 Bn in the previous month. Merchandise exports grew 4.6% in September 2016. Excluding petroleum products, exports grew 5.4%. The 9 month high deficit was largely due to the lowest contraction in imports (2.5% YoY). Thus, trade deficit was \$23.8 bn in 2QFY17 against almost \$18bn in the previous 2 quarters.

CPI inflation for the month of September at 4.3% YoY fell sharply from previous month's 5.05%. September CPI inflation was a 13 month low and Average CPI for H1FY17 stands at 5.4% vs 4.5% in H1FY16. The sharp decline was on account of softer food inflation, which fell from 8% in July 16 to 4% in September 16. The decline in food inflation was mainly contributed by a fall in vegetable prices and sharp deceleration in pulses inflation. Core inflation however inched up by 30 bps.

WPI inflation dipped marginally to 3.6% vs 3.7% in the previous month. Like in the case of CPI, the decline was led by dip in food inflation from 8.2% in August to 5.7%. The decrease was led by pulses (24% in Sept. vs 34.5% in August) & Vegetables (-10% vs 0.2% in August). Fruit prices, however went up by 14%.

Crude prices corrected during the month by ~5% with benchmark Brent ending at \$48.6/bbl. Gold prices saw a minor correction of 2.7% to close at \$1277.3/bbl.

## Fixed Income Overview

The yield on various securities and their movement is given below:

	Levels on 31st August 2016	Levels on 30th Sept 2016	Levels on 28th October 2016
10 year Gsec	7.11%	6.92%	6.82%
5 year Corp bond	7.52%	7.45%	7.40%
2 month CD yield	6.55%	6.50%	6.45%
2 month CP yield	6.65%	6.60%	6.62%
1 year CD yield	7.20%	6.90%	6.90%
1 month CD yield	6.35%	6.35%	6.35%
Rupee = USD	66.96	66.55	66.77

Source: Thomson Reuters & Internal Research

The major event during the month of October was the Bi-monthly Monetary Policy Review under the new governor Dr Urjit Patel. This was the first meeting where the key decision on rates was taken by the Monetary Policy Committee. The key decisions taken by the committee are:-

- 1) The repo rate was cut by 25 bps from 6.50% to 6.25%.
- 2) The decision was unanimous by all the six committee members.

The committee was of the view that the above action of cutting rates was consistent with an accommodative stance of monetary policy. The target for the monetary policy was to achieve CPI at 5% by the end of March 2017 and medium term target for inflation was 4% within a band of (+/-) 2%.

## HOW TO READ FACTSHEET?

### Fund Manager:

An employee of the asset management company such as a mutual fund or life insurer, who manages investments of the scheme. He is usually part of a larger team of fund managers and research analysts.

### Application Amount for Fresh Subscription:

This is the minimum investment amount for a new investor in a mutual fund scheme.

### Minimum Additional Amount:

This is the minimum investment amount for an existing investor in a mutual fund scheme.

### Yield to Maturity:

The Yield to Maturity or the YTM is the rate of return anticipated on a bond if held until maturity. YTM is expressed as an annual rate. The YTM factors in the bond's current market price, par value, coupon interest rate and time to maturity.

### SIP:

SIP of systematic investment plan works on the principle of making periodic investments of a fixed sum. It works similar to a recurring bank deposits. For instance, an investor may opt for an SIP that invest Rs. 500 every 15th of the month in an equity fund for a period of three years.

### NAV:

The NAV or the net asset value is the total asset value per unit of the mutual fund after deducting all related and permissible expenses. The NAV is calculated at the end of every business day. It is the value at which the investor enters or exits the mutual fund.

### Benchmark:

A group of securities, usually a market index, whose performance is used as a standard or benchmark to measure investment performance of mutual funds, among other investments. Some typical benchmarks include the Nifty, Sensex, BSE200, BSE500, 10-Year G-Sec.

### Entry Load:

A mutual fund may have a sales charge or load at the time of entry and/or exit to compensate the distributor/agent. Entry load is charged at the time an investor purchases the units of a mutual fund. The entry load is added to the prevailing NAV at the time of investment. For instance, if the NAV is Rs. 100 and the entry load is 1%, the investor will enter the fund at Rs. 101.

*Note: SEBI, vide circular dated June 30, 2009 has abolished entry load and mandated that the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor.*

### Exit Load:

Exit load is charged at the time an investor redeems the units of a mutual fund. The exit load is deducted from the prevailing NAV at the time of redemption. For instance, if the NAV is Rs. 100 and the exit load is 1%, the redemption price would be Rs. 99 per unit.

### Modified Duration:

Modified duration is the price sensitivity and the percentage change in price for a unit change in yield.

### Standard Deviation:

Standard deviation is a statistical measure of the range of an investment's performance. When a mutual fund has a high standard deviation, it means its range of performance is wide, implying greater volatility.

### Sharpe Ratio:

The Sharpe Ratio, named after its founder, the Nobel Laureate William Sharpe, is a measure of risk-adjusted returns. It is calculated using standard deviation and excess return to determine reward per unit of risk.

### Beta Ratio:

Beta is a measure of an investment's volatility vis-a-vis the market. Beta of less than 1 means that the security will be less volatile than the market. A beta of greater than 1 implies that the security's price will be more volatile than the market.

### AUM:

AUM or assets under management refers to the recent / updated cumulative market value of investments managed by a mutual fund or any investment firm.

### Holdings:

The holdings or the portfolio is a mutual fund's latest or updated reported statement of investments / securities. These are usually displayed in terms of percentage to net assets or the rupee value or both. The objective is to give investors an idea of where their money is being invested by the fund manager.

### Nature of Scheme:

The investment objective and underlying investments determine the nature of the mutual fund scheme. For instance, a mutual fund that aims at generating capital appreciation by investing in stock markets is an equity fund or growth fund. Likewise, a mutual fund that aims at capital preservation by investing in debt markets is a debt fund or income fund. Each of these categories may have sub-categories.

### Rating Profile:

Mutual funds invest in securities after evaluating their creditworthiness as disclosed by the ratings. A depiction of the mutual fund in various investments based on their ratings becomes the rating profile of the fund. Typically, this is a feature of debt funds.

### Total Expense Ratio:

The Expenses of a mutual fund include management fees and all the fees associated with the fund's daily operations. Expense Ratio refers to the annual percentage of fund's assets that is paid out in expenses.

### Average Maturity:

The average time of maturity of all the debt securities held in a portfolio. It states the weighted average maturity of the assets in the portfolio.

### Portfolio Yield:

The income return on an investment. This refers to the interest or dividends received from a security and are usually expressed annually as a percentage based on the investment's cost, its current market value or its face value.

### Risk Free Return:

The theoretical rate of return attributed to an investment with zero risk. The risk-free rate represents the interest on an investor's money that he or she would expect from an absolutely risk-free investment over a specified period of time.

### Tracking Error:

The divergence between the price behavior of a position or portfolio and the price behavior of a benchmark.

### Portfolio Turnover Ratio:

This is a measure of the fund's trading activity, which is computed by taking the lesser of purchases or sales (excluding all securities with maturities of less than one year) and dividing by average monthly net assets.

# IDBI Equity Advantage Fund (IEAF)

(An open-ended Equity Linked Savings scheme (ELSS) offering Income Tax benefits under Section 80C of the IT Act, 1961)

## Scheme Features

### Investment objective:

The Scheme will seek to invest predominantly in a diversified portfolio of equity and equity related instruments with the objective to provide investors with opportunities for capital appreciation and income along with the benefit of income-tax deduction (under section 80C of the Income-tax Act, 1961) on their investments. Investments in this scheme would be subject to a statutory lock-in of 3 years from the date of allotment to be eligible for income-tax benefits under Section 80C. There can be no assurance that the investment objective under the scheme will be realized.

# IDBI Nifty Index Fund (INIF)

(An open-ended passively managed equity scheme tracking the Nifty 50 Index [Total Returns Index])

## Scheme Features

### Investment objective:

The investment objective of the scheme is to invest only in and all the stocks comprising the Nifty 50 Index in the same weights of these stocks as in the Index with the objective to replicate the performance of the Total Returns Index of Nifty 50 Index. The scheme may also invest in derivatives instruments such as Futures and Options linked to stocks comprising the Index or linked to the Nifty 50 Index. The scheme will adopt a passive investment strategy and will seek to achieve the investment objective by minimizing the tracking error between the Nifty 50 Index (Total Returns Index) and the Scheme.

<b>Fund Manager:</b>	<b>Total Experience:</b> Over 9 Years
Mr. Anshul Mishra	(Managing this Scheme since 9th April 2015)

# Scheme Benchmark

## Additional Benchmark as per SEBI Circular dated August 22, 2011.

Past Performance may or may not be sustained in the future. Returns pertain to growth option under Regular Plan and the same have been computed using XIRR by excel spreadsheet function. XIRR helps in calculating return on investments based on cash flows that are uniform and regular monthly subscriptions.

# Scheme Benchmark

## Additional Benchmark as per SEBI Circular dated August 22, 2011.

Past Performance may or may not be sustained in the future. Returns pertain to growth option under Direct Plan and the same have been computed using XIRR by excel spreadsheet function. XIRR helps in calculating return on investments based on cash flows that are uniform and regular monthly subscriptions.

MUTUAL FUND INVESTMENTS ARE SUBJECT TO MARKET RISKS, READ ALL SCHEME RELATED DOCUMENTS CAREFULLY.
