Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation of the Scheme would be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Securities covered by the Nifty Midcap 100 Index	95	100
Units of Liquid/ debt schemes and money market instruments including Triparty Repo (with maturity not exceeding 91 days)	0	5

Money Market Instruments include commercial papers, commercial bills, treasury bills, and Government securities, call or notice money, certificate of deposit, usance bills, Triparty Repo and any other like instruments as specified by the Reserve Bank of India from time to time.

Atleast 95% of the net assets of the scheme will be invested in securities constituting the Nifty Midcap 100 Index. This would be done by investing in all securities with the same weightage that they represent in the Nifty Midcap 100 Total Return Index.

A small portion of the net assets will be invested in units of Liquid/Debt Schemes and money market instruments permitted by SEBI / RBI to meet the liquidity requirements of the scheme.

The Cumulative Gross Exposure through equity, debt money market instruments and derivative positions will not exceed 100% of the net assets of the Scheme in accordance with paragraph 12.24 of SEBI Master Circular for Mutual Funds.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated 3rd November 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

In accordance with Clause 3.4 of SEBI Master Circular for Mutual Funds , the underlying index shall comply with the following portfolio concentration norms as given below:

1. The index shall have a minimum of 10 stocks as its constituents.
2. For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
3. The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
4. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

Since LIC MF Nifty Midcap 100 ETF is a passively managed exchange traded open ended index scheme, therefore change in investment pattern is normally not foreseen. However, for short durations part of the corpus may be pending for deployment, in cases of extreme market conditions or special events.

Portfolio rebalancing in case of passive breaches:

In accordance with Clause 3.6.7 of SEBI Master Circular for Mutual Funds, in case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

In the event of involuntary corporate action, the Scheme shall endeavor to dispose the security not forming part of the Underlying index within 7 days from the date of listing, subject to availability of adequate liquidity for the security.

Short Term Defensive Consideration:

Exposure to equity derivatives of the index or its constituent stocks may be undertaken when equity shares of the underlying index are unavailable or not available in sufficient quantities, or rebalancing in case of corporate actions. However, investment in derivatives will be for a temporary period on defensive considerations. The Scheme shall rebalance the portfolio in case of any deviation to the asset allocation. Such rebalancing shall be done within 7 calendar days from the date of such deviation.

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and for defensive considerations only. In the event of the asset allocation falling outside the limits specified in the asset allocation table, the Fund Manager will rebalance the same within 7 calendar days. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme. Any alteration in the investment pattern will be for short-term defensive consideration as per Clause 1.14.1.2 of SEBI Master Circular for Mutual Funds, the intention being at all times to protect the interests of the Unit Holders.

The Scheme, in general, will hold all the securities that constitute the underlying Index in the same proportion as the index. The expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible.

B. WHERE WILL THE SCHEME INVEST?

A. The Scheme would invest in stocks comprising the Nifty Midcap 100 Total Return Index in the same proportion (weightage) as in the Index and endeavour to track the benchmark index. The Scheme may invest in stock futures/index futures and such other permitted derivative instruments only for portfolio balancing.

B. Money Market Instruments:

A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI including call money market or in alternative investment for the call money

market as may be provided by the RBI, to meet the liquidity requirements of the scheme.

1. Government Debt including Treasury Bills and Securities created and issued by the Central and State Governments
2. Certificate of Deposit (CD)
3. Triparty Repo (TREPS)
4. Commercial Paper (CP)
5. Short Term deposit of Scheduled Commercial Banks (pending deployment) as per applicable guidelines.
6. Call or notice money
7. Usance bills

Investments in the above instruments will be with maturity upto 91 days.

C. Mutual Fund Units (Debt/Liquid Schemes)

Such other securities/assets as may be permitted by SEBI from time to time.

The Scheme may undertake interscheme transfers subject to compliance of the provisions of Paragraph 12.30 of SEBI Master Circular for Mutual Funds.

Investments in Instruments stated above will be as per the limits specified in the asset allocation table as mentioned subject to restrictions / limits laid under SEBI (Mutual Funds) Regulations 1996 mentioned under section 'WHAT ARE THE INVESTMENT RESTRICTIONS?'

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Fund would invest not less than 95% of its corpus in securities comprising the Nifty Midcap 100 Total Return Index and endeavour to track the benchmark index while minimizing the tracking error and therefore would follow a passive investment strategy. The scheme would aim to maintain least amount of cash & will also try & avoid investment in debt & money market securities. This would only be for the purpose of redemption requirements.

LIC MF Nifty Midcap 100 ETF is a passively managed exchange traded fund which will employ an investment approach designed to track the performance of Nifty Midcap 100 TRI. The Scheme seeks to achieve this goal by investing in securities constituting the Nifty Midcap 100 TRI in same proportion in the range of 95% to 100%. The Scheme may also invest in units of Liquid/ debt schemes, debt and money market instruments, in the range of 0% to 5% to meet the liquidity and expense requirements.

Derivatives

The Scheme may invest up to 20% of Equity assets of the scheme. Exposure to equity derivatives of the index or its constituent stocks may be undertaken when equity shares of the underlying index are unavailable or not available in sufficient quantities, or rebalancing in case of corporate actions. However, investment in derivatives will be for a temporary period on defensive considerations. The Scheme shall rebalance the portfolio in case of any deviation to the asset allocation. Such rebalancing shall be done within 7 calendar days from the date of such deviation. The Scheme does not intend to invest in debt derivatives.

Equity derivative instruments:

Exposure to equity derivatives of the index or its constituent stocks may be undertaken when equity shares of the underlying index are unavailable or not available in sufficient quantities, or rebalancing in case of corporate actions. However, investment in derivatives will be for a temporary period on defensive considerations. The Scheme shall rebalance the portfolio in case of any deviation to the asset allocation. Such rebalancing shall be done within 7 calendar days from the date of such deviation.

For detailed derivatives Strategy, please refer Statement of Additional Information.

Tracking Error

Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to Dividend received, subscriptions, redemption, etc.
3. Halt in trading on the stock exchange due to circuit filter rules.
4. Corporate actions
5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
6. Payout of Dividend.
7. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a. However, in case of events like Dividend issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket or unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

Tracking Difference:

Tracking difference i.e. the annualized difference of daily returns between the index or goods and the NAV of the ETF will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

PORTFOLIO TURNOVER:

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. Generally, turnover will be confined to rebalancing of portfolio on account of change in the composition and corporate actions of Nifty Midcap 100 TRI.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

NIFTY Midcap 100 TRI*

The performance will be benchmarked to Total Returns Variant of the Index.

Justification for use of Benchmark: As the Scheme primarily invests in constituents of Nifty Midcap 100 TRI Index and the investment objective is to provide returns that correspond to the total returns of securities as represented by Nifty Midcap 100 Total Return Index, subject to tracking errors, the Scheme will be benchmarked against the Nifty Midcap 100 TRI Index.

***Benchmark Disclaimer:** LIC MF Nifty Midcap 100 ETF is not sponsored, endorsed, sold or promoted by NSE Indices Ltd. NSE Indices Ltd does not make any representation or warranty, express or implied, to the owners of the Scheme or any member of the public regarding the advisability of investing in securities generally or in the Scheme particularly or the ability of the Nifty Midcap 100 Total Return Index to track general stock market performance in India. Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of units outstanding under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (Mutual Funds) Regulations, 1996 or such norms as may be specified by SEBI from time to time.

NAV of units under Scheme shall be calculated as shown below:

$$\text{NAV per unit} = \frac{\text{Market or Fair Value of the Scheme's Investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under the Scheme}}$$

The NAV of the Scheme will be calculated and disclosed at the close of every Business Day. Separate NAV will be calculated and announced for each of the Options of the respective Plan(s) at the close of every Business Day. The NAV will be calculated upto 4 decimals.

Illustration of NAV: If the net assets of the Scheme, after considering applicable expenses, are Rs.10,05,55,700 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: Rs. 10,05,55,700 / 1,00,00,000 units = Rs. 10.0556 per unit (rounded off to four decimals).

a) Methodology of calculating sale price

The price or NAV a unitholder is charged while investing in Scheme is called sale or subscription price. Pursuant to paragraph 10.4.1.a of SEBI Master Circular for Mutual Funds, no entry load will be charged by the Scheme to the unitholders. Therefore,

Sale/Subscription price = Applicable NAV (subject to Statutory levies applicable, if any.)

For Example: An investor invests Rs. 20,000/- and the current NAV is Rs. 20/- then the sale/subscription price will be Rs. 20/- and the investor will receive $20000/20 = 1000$ units

b) Methodology of calculating repurchase price

Repurchase or redemption price is the price or NAV at which scheme purchases or redeems its units from the Unitholders. It may include exit load, if applicable. The exit load, if any, shall be charged as a percentage of Net Assets Value (NAV) i.e. applicable load as a percentage of NAV will be deducted from the "Applicable NAV" to calculate the repurchase price. Therefore,

Repurchase or Redemption Price = Applicable NAV * (1 - Exit Load, if any).

For example, If the Applicable NAV of the Scheme is Rs.10 and the Exit Load applicable at the time of investment is 2% if redeemed before completion of 1 year from the date of allotment of units and the unitholder redeems units before completion of 1 year, then the repurchase or redemption price will be: Rs. $10 * (1-0.02) = \text{Rs.}9.80$.

The Redemption Price will not be lower than 95% of the NAV or as permitted / prescribed under the SEBI (Mutual Funds) Regulations, 1996 from time to time.

Please refer Statement of Additional Information for details such as policies with respect to computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc.

B. NEW FUND OFFER (NFO) EXPENSES

This section does not apply to the Scheme, as the ongoing offer of the Scheme has commenced after the NFO, and the Units are available for continuous subscription and redemption.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1.00% of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the AMC.

Expense Head	% p.a. of daily Net Assets (Estimated p.a.)
Investment Management & Advisory Fee	1.00%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communication	
Costs of fund transfer from location to location	
Cost towards investor education & awareness (1 bps)	
Brokerage & transaction cost (inclusive of GST) over and above 12 bps and 5 bps for cash and derivative market trades respectively	
Goods & Services Tax on expenses other than investment and advisory fees**	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (As per Reg 52 of SEBI (Mutual Funds) Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c)	1.00%
Additional expenses for gross new inflows from specified cities#	0.30%

** Mutual funds /AMCs may charge GST on investment and advisory fees to the scheme in addition to the maximum limit of TER as prescribed in regulation 52 of the Regulations.

***Direct Plan under the aforementioned Scheme shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid / charged under the Direct Plan.

#Additional TER will be charged based on inflows only from retail investors (other than Corporates and Institutions) from B 30 cities.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Schemes will bear directly or indirectly.

The fund shall update the current expense ratios on the website (www.licmf.com) at least three working days prior to the effective date of the change. The exact web link for TER is <https://www.licmf.com/downloads/total-expense-ratio>.

The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the maximum permissible limits prescribed under the SEBI (Mutual Funds) Regulations.

In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may charge the following to the concerned Scheme of the Fund under Regulation 52 (6A):

Additional expenses up to 0.30 per cent of daily net assets of the concerned schemes of the Fund if new inflows from retail investors from B30 cities as may be specified by Regulations from time to time are at least:

- (i) 30 per cent of gross new inflows in the concerned scheme, or;
- (ii) 15 per cent of the average assets under management (year to date) of the concerned scheme, whichever is higher.

Provided that if inflows from retail investors from B30 cities are less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned scheme shall be charged on proportionate basis.

Further, the expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from retail investors from B30 cities. The amount incurred as expense on account of inflows from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment. "B30 cities" shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor".

With reference to SEBI's letter no. SEBI/HO/ IMD/ IMD-SEC-3/ P/ OW/ 2023/ 5823/ 1 dated February 24, 2023, AMFI Circular no. 35P/ MEM-COR/ 85/ 2022-23 dated 2nd March 2023 and AMFI Circular no. 35P/ MEM-COR/ 85a/ 2022-23 dated 2nd March 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from 01st March 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

In Addition to expenses under Regulation 52 (6) and (6A), AMC may charge GST on investment and advisory fees, expenses other than investment and advisory fees and brokerage and transaction cost as below:

- a. **GST on investment and advisory fees:** AMC may charge GST on investment and advisory fees of the scheme in addition to the maximum limit of TER as per the Regulation 52(6).
- b. **GST on expenses other than investment and advisory fees:** AMC may charge GST on expenses other than investment and advisory fees of the scheme, if any within the maximum limit of TER as per the Regulation under 52(6).
- c. **GST on brokerage and transaction cost:** The GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of TER as per the Regulation 52(6).

Further, it is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the Scheme upto 12 bps and 5 bps for cash market transactions and derivative transactions respectively. Any payment towards brokerage and transaction cost, over and above the said 12 bps cash market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations.

At least 1 bps on daily net assets within the maximum limit of overall expense Ratio shall be annually set apart for investor education and awareness initiatives.

These estimates have been made in good faith by the AMC and are subject to change inter-se. The total recurring expenses that can be charged to the Scheme will be subject to limits prescribed from time to time under the SEBI Regulations.

Any other expenses that are directly attributable to the Scheme, and permissible under SEBI (Mutual Funds) Regulations, 1996 from time to time, may be charged within the overall limits as specified in the Regulations.

The Scheme shall strive to reduce the level of these expenses so as to keep them well within the maximum limits currently allowed by SEBI and any revision in the said expenses limits by SEBI would be applicable.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the AMC, its associate, sponsor, trustee or any other entity through any route.

Illustration of impact of expense ratio on Scheme's returns :-

Particulars	Scheme Returns
Amount invested at the beginning of the year (in Rs.)	20,000
Returns before expenses (in Rs.)	2000
Returns before expenses (%)	10%
Expenses (in Rs.)	200
Returns after expenses at the end of the Year (in Rs.)	1800
Returns after expenses at the end of the Year (%)	9%

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of LIC Mutual Fund (www.licmf.com) or may call at (toll free no. 1800 258 5678) or at Official Points of Acceptance for Schemes of LIC Mutual Fund (List of Official Point of Acceptance available on the website of the AMC i.e. www.licmf.com).

Type of Load	Load chargeable (as percentage of NAV)
Exit	NIL

No exit load will be levied on Bonus Units.

The Trustee reserves the right to modify / change the Load structure depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the SEBI (Mutual Funds) Regulations, Exit load charged, if any, shall be credited to the Scheme. The investor is requested to check the prevailing load structure of the Scheme before investing.

Any imposition or enhancement of Exit Load shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on Reinvestment of Income Distribution cum Capital Withdrawal for existing as well as prospective investors. At the time of changing the load structure the AMC / Mutual Fund may adopt the following procedure:

- The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Document and Key Information Memoranda already in stock.
- Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- The introduction of the exit load alongwith the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- A public notice shall be given in respect of such changes on the website of AMC.

Section II

I. Introduction

A. Definitions/interpretation

Definitions

Definitions pertaining to the Scheme are available at the below link: <https://www.licmf.com/sid-disclosure>

Interpretation

For all purposes of the SID, except as otherwise expressly provided or unless the context otherwise requires:

- All references to the masculine shall include the feminine and all references, to the singular shall include the plural and vice-versa.
- All references to "Rs" refer to Indian Rupees. A "crore" means "ten million" and a "lakh" means a "hundred thousand".
- All references to timings relate to Indian Standard Time (IST).

B. Risk factors

Scheme specific Risk factors:

- The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information.
- Redemption by the unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund their directors or their employees shall not be liable for any tax consequences that may arise.
- The tax benefits described in the SAI & SID are as available under the present taxation laws and are available subject to relevant condition. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor / Unit holder is advised to consult his/her/its own professional tax advisor.
- LIC MF Nifty Midcap 100 ETF would be investing in equities, money market instruments (such as Triparty Repo or as defined by SEBI regulations, term/notice money market, repos, reverse repos and any alternative as may be directed by the RBI). The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the Trustees have the right in their sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.
- The Mutual Fund is not assuring any Income Distribution cum capital withdrawal nor is it assuring that it will make any Income Distribution cum capital withdrawal distributions. All Income Distribution cum capital withdrawal distributions are subject to the availability of distributable surplus and would depend on the performance of the scheme.
- Portfolio concentration risk: ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager's decisions.

RISK FACTORS ASSOCIATED WITH INVESTMENTS IN EQUITY AND EQUITY RELATED SECURITIES:

- Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.
- The inability of the Scheme to make intended securities purchases due to settlement problems, could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances.
- Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the schemes portfolio.
- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.
- Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

RISKS ASSOCIATED WITH MARKET TRADING:

- Absence of Prior Active Market:** Although the units of Exchange Traded Funds are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
- Lack of Market Liquidity:** Trading in units of Exchange Traded Funds on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the Exchange Traded Fund Units is inadvisable. In addition, trading in the units of Exchange Traded Funds is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit breaker' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of Exchange Traded Funds will continue to be met or will remain unchanged.
- Units of Exchange Traded Funds May Trade at Prices Other than NAV:** Units of Exchange Traded Funds may trade above or below their NAV. The NAV of Units of Exchange Traded Funds may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of Exchange Traded Fund will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that Exchange Traded Funds can be created/ redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.
- Regulatory Risk:** Any changes in trading regulations by the Exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV.
- Political Risks:** Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.
- Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the Scheme offered under this Offer Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day depending on the total "Saleable Underlying Stock" available with the fund.

- g. **Redemption Risk** – The Unit Holders may note that even though this is an open ended scheme, the Scheme would ordinarily repurchase Units in Creation Unit size. Thus, unit holdings less than the Creation Unit size can normally only be sold through the secondary market, unless no quotes are available on the Exchange for 3 trading days consecutively.
- h. **Passive Investments:** As LIC MF Nifty Midcap 100 ETF is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgment about the investment merit nor shall attempt to apply any economic, financial or market analysis.

RISKS ASSOCIATED WITH MARKET TRADING:

- **Absence of Prior Active Market:** Although the units of Exchange Traded Funds are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
- **Lack of Market Liquidity:** Trading in units of Exchange Traded Funds on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the Exchange Traded Fund Units is inadvisable. In addition, trading in the units of Exchange Traded Funds is subject to trading halts caused by extraordinary market volatility pursuant to ‘circuit breaker’ rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of Exchange Traded Funds will continue to be met or will remain unchanged. The unit purchase/sale shall be carried out in unit creation size, by executing market trades in the underlying constituents of the index. If the volume of the constituent(s) is insufficient on any given trade date, the traded price of the day shall be considered for such constituent(s) while issuing the unit purchase/sale confirmation. In such a scenario, portfolio deviation (if any) shall be rectified in the following trading day(s).
- **Units of Exchange Traded Funds May Trade at Prices Other than NAV:** Units of Exchange Traded Funds may trade above or below their NAV. The NAV of Units of Exchange Traded Funds may fluctuate with changes in the market value of a Scheme’s holdings. The trading prices of units of Exchange Traded Fund will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that Exchange Traded Funds can be created / redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.
- **Regulatory Risk:** Any changes in trading regulations by the Exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV.
- **Political Risks:** Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.
- **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the Scheme offered under this Offer Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day depending on the total “Saleable Underlying Stock” available with the fund.

- **Redemption Risk** – The Unit Holders may note that even though this is an open ended scheme, the Scheme would ordinarily repurchase Units in Creation Unit size. Thus, unit holdings less than the Creation Unit size can normally only be sold through the secondary market, unless no quotes are available on the Exchange for 3 trading days consecutively.
- **Passive Investments:** As LIC MF Nifty Midcap 100 ETF is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgment about the investment merit nor shall attempt to apply any economic, financial or market analysis.

RISK FACTORS ASSOCIATED WITH INVESTMENTS IN MONEY MARKET INSTRUMENTS:

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, debt securities in this scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities.
- The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

Risk associated with Exchange Traded Funds

1. Passive Investments:

As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying

index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets. The value of the Scheme's investments may be affected generally by factors affecting equity markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.

2. Market risk:

ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.

3. Tracking errors and Tracking difference:

Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy.

4. Trading at discount or premium:

An ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors and may be particularly likely to emerge during periods of high market volatility and uncertainty.

5. Liquidity risk:

Authorized participants (APs) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more APs, there is no assurance that active trading will be maintained.

6. As the units of the Scheme are listed on the Stock Exchange, trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules and the Scheme would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Scheme will continue to be met or will remain unchanged.
7. Listing and trading of the units are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the Scheme and its prices.
8. Though the Scheme is listed on the NSE and BSE, there is no assurance that an active secondary market will develop or be maintained. Hence, there would be times when trading in the units of the Scheme would be infrequent.
9. The NAV of the Scheme reflects the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units are traded on the Stock Exchange, the units of the Scheme may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the Scheme, perceived trends in the market outlook, etc.

10. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.
11. Tracking errors may arise due to various reasons like fees and expenses charged to the Scheme, IDCW received, corporate actions, change in the Underlying Index, etc. Tracking error has an impact on the performance of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Basket. However, the Fund would endeavor to keep the tracking error as low as possible.

Risk Factors Associated with Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

Risk factors associated with investing in Derivatives

The AMC, on behalf of the Scheme may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and enhance Unit holders' interest. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

Lack of opportunity available in the market: The risk of mispricing or improper valuation, and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged. Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margin's or insist that margins be placed in cash. All of these might force positions to be unwound at a loss and might materially impact returns.

Risks associated with investing in TREPS Segments

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered, and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

OTHER RISKS

Risk associated with inflation: Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment's purchasing power.

Legal Risk: The scheme may be affected by the actions of government and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be aware of. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the scheme from pursuing their strategies or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalization of any institution or restrictions on investment strategies in any given market sector or changing requirements and imposed without prior warning by any regulator.

Valuation Risk: This risk relates to the fact that markets, in specific situations and due to lack of volumes of transactions, do not enable an accurate assessment of the fair value of invested assets. In such cases, valuation risk represents the possibility that, when a financial instrument matures or is sold in the market, the amount received is less than anticipated, incurring a loss to the portfolio and therefore impacting negatively the NAV of the scheme.

Past performance of the Sponsor/ the AMC/ the Mutual Fund is not indicative of the future performance of the Scheme. LIC MF Nifty Midcap 100 ETF is the name of the Scheme and does not in any manner indicate either the quality of the Scheme; its future prospects or returns.

Trading through mutual fund trading platforms of BSE and/ or NSE

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

Risks associated with Segregated portfolio

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their

holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risk Factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

Risk associated with potential change in Tax structure

This summary of tax implications given in the taxation section is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk Mitigation Strategies

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

Some of the risks and the corresponding risk mitigating strategies are listed below:

Risk	Risk mitigation strategy
Market Risk The scheme is vulnerable to price fluctuations and volatility changes, which could have a material impact on the overall returns of the scheme.	Market risk is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.
Liquidity risk The liquidity of the scheme's investments is inherently restricted by trading volumes in the securities in which it invests	Periodic monitoring of portfolio liquidity.
Tracking Error risk (Volatility/ Concentration risk): The performance of the Scheme may not be commensurate with the performance of their underlying Index viz. Nifty Midcap 100 Index on any given day or over any given period.	Over a short to medium period, scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the index.

II. Information about the Scheme:

A. Where will the scheme invest?

- **Investment in Equities and equity related instruments:** The Scheme would invest in stocks comprising the Nifty Midcap 100 Total Return Index in the same proportion (weightage) as in the Index and endeavour to track the benchmark index. The Scheme may invest in stock futures/index futures and such other permitted derivative instruments only for portfolio balancing.
- A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI including call money market or in alternative investment for the call money market as may be provided by the RBI, to meet the liquidity requirements of the scheme.

1. Government Debt

Treasury Bills (T-Bills) are issued by the Government of India or State Governments to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-Bills are issued at a discount and for a fixed period.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government Securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

2. Certificate of Deposit (CD)

Certificate of Deposit (CD) is a negotiable money market instrument issued by Scheduled Commercial Banks (SCBs) and select All India Financial Institutions (FIs) that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the SCBs is between 7 days to 1 year, whereas, in case of FIs, maturity is 1 year to 3 years from 47 the date of issue. CDs also are issued at a discount to face value and can be traded in secondary market.

3. Triparty Repo (TREPS)

Tri-party Repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. The Scheme shall undertake Tri-party Repo transactions in Government Securities.

4. Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity. CP can be issued for maturities between a minimum of 15 days and a maximum up to 1 year from the date of issue.

5. Short Term Deposit of Scheduled Commercial Banks (pending) as per applicable guidelines

Pending deployment of funds as per the investment objective of the Scheme, and for margin purposes, the funds may be parked in short term deposits of Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI from time to time.

6. Call or notice money
7. Usance bills
8. Such other securities/assets as may be permitted by SEBI from time to time.

Investments in the above instruments will be with maturity upto 91 days.

III. Mutual Fund Units

The Scheme may also invest in other schemes (Debt/Liquid Schemes) managed by the AMC or in the schemes of any other mutual funds (without charging any fees) in conformity with the investment objective of the Scheme and in the terms of the prevailing SEBI (Mutual Funds) Regulations, 1996. Provided the aggregate interscheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

The Scheme may undertake interscheme transfers subject to compliance of the provisions of Paragraph 12.30 of SEBI Master Circular for Mutual Funds.

Investments in Instruments stated above will be as per the limits specified in the asset allocation table as mentioned subject to restrictions / limits laid under SEBI (Mutual Funds) Regulations 1996 mentioned under section 'WHAT ARE THE INVESTMENT RESTRICTIONS?'

DEBT AND MONEY MARKETS IN INDIA:

The instruments available in Indian Debt Market are classified into two categories, namely Government and Non -Government debt. The following instruments are available in these categories:

A] Government Debt

- Central Government Debt • Zero Coupon Bonds • Treasury Bills • State Government Debt • Dated Government Securities • State Government Loans • Coupon Bearing Bonds • Floating Rate Bonds

B] Non-Government Debt

- Instruments issued by Government Agencies and other Statutory Bodies • Instruments issued by Banks and Development Financial institutions • Government Guaranteed Bonds • PSU Bonds • Instruments issued by Public Sector Undertakings • Instruments issued by Corporate Bodies • Fixed Coupon Bonds • Floating Rate Bonds • Zero Coupon Bonds • Certificates of Deposit • Promissory Notes • Commercial Paper • Non-Convertible Debentures • Fixed Coupon Debentures • Floating Rate Debentures • Zero Coupon Debentures

Certificate of Deposit (CD):

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks (SCBs) and select All India Financial Institutions (FIs), within their umbrella limit. The scheme introduced by RBI allows these institutions to mobilize bulk deposits from the market, which they can have at competitive rates of interest. The maturity period of CDs issued by the SCBs is between 7 days to 1 year. CDs also are issued at a discount to face value and can be traded in secondary market. Duplicate can be issued after giving a public notice & obtaining indemnity.

Triparty Repo (TREPS):

"Triparty repo" means a repo contract where a third entity (apart from the borrower and lender), called a Tri- Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. TREPS facilitates, borrowing and lending of funds, in Triparty Repo arrangement.

Commercial Paper (CP):

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short- term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity. CP can be issued for maturities between a minimum of 15 days and a maximum up to 1 year from the date of issue.

Non Convertible Debentures and Bonds

Non convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a guarantee. Nonconvertible debentures are unsecured bonds that cannot be converted to company equity or stock. Nonconvertible debentures usually have higher interest rates than convertible debentures. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements.

Debt Instruments

Activity in the Primary and Secondary Market is dominated by Central Govt. Securities including Treasury Bills.

In the money market, activity levels of the Government and Non-Government Debt vary from time to time. Instruments that comprise a major portion of money market activity include Overnight Call, Triparty Repo, Treasury Bills, Government Securities with a residual maturity of less than 1 year, Commercial Papers, Certificate of Deposit.

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though, not strictly classified as Money Market Instruments, PSC / DFI / Corporate Paper with a residual maturity of less than 1 year are actively traded and offer a viable investment option.

B. What are the investment restrictions?

- 1) The Scheme shall not invest more than 10% of debt portfolio in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the debt portfolio of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company. Further, the scheme shall not invest more than:
 - 10% of the debt portfolio in debt and money market securities rated AAA; or
 - 8% of the debt portfolio in debt and money market securities rated AA; or
 - 6% of the debt portfolio in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the debt portfolio of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and collateralized borrowing and lending obligations:

Provided further that investment within such limit can be made in mortgaged backed securitised debts which are rated not below investment grade by a credit rating agency registered with the Board:

Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its NAV.

- 2) The Mutual Fund under all its schemes shall not own more than 10% of any company's paid up capital carrying voting rights. For investments in asset management company or trustee company of other mutual fund, collective investment of sponsor of a mutual fund, its associate and/or its group company, and its AMC through Mutual Fund Schemes should be considered for calculating 10% voting rights.
- 3) Transfer of investments from one Scheme to another Scheme in the Mutual Fund shall be allowed only if:
 - (i) such transfer is done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a stock exchange for spot transactions)
 - (ii) The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - (iii) Inter Scheme Transfers shall take place in compliance with various conditions as specified Paragraph 12.30 of SEBI Master circular for Mutual Funds .

The Schemes may invest in another scheme (except fund of funds Schemes) under the AMC or any other mutual fund without charging any fees, provided that the aggregate inter-scheme investment made by all Schemes under the same management or in Schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. No investment management fees shall be charged for investing in other schemes of the fund or in the schemes of any other Mutual Fund.

- 4) The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

- 5) The Mutual Fund shall get the securities purchased/transferred in the name of the Mutual Fund on account of the Schemes, wherever the instruments are intended to be of a long term nature.
- 6) Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks, in terms of Paragraph 12.16, of SEBI Master Circular for Mutual Funds , subject to the following conditions:

- (i) "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- (ii) Such short-term deposits shall be held in the name of the Scheme.
- (iii) The Scheme shall not park more than 15% of their net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- (iv) The Scheme shall not park more than 10% of their net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
- (v) The Trustee shall ensure that the funds of the Schemes are not parked in the short term deposits of a bank which has invested in the Schemes.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

- 7) No Scheme shall make any investment in:
- any unlisted security of any associate or group company of the Sponsors; or
 - any security issued by way of private placement by an associate or group company of the Sponsors; or
 - the listed securities of group companies of the Sponsors, which is in excess of 25% of the net assets except for investments by equity oriented exchange traded funds and index funds and subject to such conditions as may be specified by SEBI from time to time.

- 8) The Schemes shall not make any investment in any fund of funds scheme.
- 9) No Scheme shall invest more than 10% of its NAV in the equity shares/equity related instruments of any company. Provided that the limit of 10% shall not be applicable for investments in the case of index fund or exchange traded fund or sector or industry specific scheme.
- 10) All investments by the Scheme shall be made only in listed and equity related instruments.
- 11) No term loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of repurchase, redemption of Units or payment of interest or Income Distribution cum capital withdrawal to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
- 12) If any company invests more than 5% of the NAV of any of the Schemes, investment made by that or any other Scheme of the Mutual Fund in that company or its subsidiaries will be disclosed in accordance with the SEBI (MF) Regulations.
- 13) The cumulative gross exposure through equity, debt and money market instruments and derivatives positions shall not exceed 100% of the net assets of the scheme. However, the following shall not be considered while calculating the gross exposure:
 - a) Security-wise hedged position and
 - b) Exposure in cash or cash equivalents with residual maturity of less than 91 days.
- 14) The Schemes will comply with any other Regulations applicable to the investment of mutual funds from time to time.
- 15) The investment manager may, from time to time invest its own funds in the scheme at its discretion. However, the investment manager shall not be entitled to charge any fees on its investments in the scheme.
- 16) The investments by debt mutual fund schemes in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees.
- 17) Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.
- 18) The underlying index shall comply with the below restrictions in line with Paragraph 3.4 of SEBI Master Circular for Mutual Funds :
 - a. The index shall have a minimum of 10 stocks as its constituents.
 - b. For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
 - c. The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.

d. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

The Scheme shall evaluate and ensure compliance to the aforesaid norms at the end of every calendar quarter.

- 19) A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Provided that Mutual Fund Schemes may invest in unlisted nonconvertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by SEBI from time to time:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by SEBI from time to time.

These investment limitations/parameters as expressed (linked to the Net Asset/Net Asset Value/capital) shall, in the ordinary course, apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any Scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Mutual Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, the AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unit Holders.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (MF) Regulations change, so as to permit the Schemes to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

All the investment restrictions shall be applicable at the time of making investments.

C. Fundamental Attributes

Following are the Fundamental Attributes of the Scheme, in terms of paragraph 1.14 of SEBI Master Circular for Mutual Funds:

- **TYPE OF A SCHEME**

An open ended scheme replicating/tracking Nifty Midcap 100 Total Return Index.

- **INVESTMENT OBJECTIVE**

- a. **Main Objective:** The investment objective of the scheme is to provide returns that correspond to the total returns of the securities as represented by the Nifty Midcap 100 Total Return Index, subject to tracking errors. There is no assurance or guarantee that the objective of the scheme would be achieved.

- b. **Investment Pattern:** The indicative portfolio break-up with minimum and maximum asset allocation is detailed in the section “HOW WILL THE SCHEME ALLOCATE ITS ASSETS?”. The fund manager reserves the right to alter the asset allocation for a short term period on defensive considerations.

- **TERMS OF ISSUE**

- a. **Liquidity provisions such as listing, repurchase, redemption.** – Repurchases are allowed on all business days on an ongoing basis from the date of allotment. Units of the schemes are mandatorily held in demat form and hence are freely transferable.

Procedure for subscribing/redeeming units directly with the fund	<p>Units of the Scheme in less than Creation Unit cannot be Purchased directly with the Fund.</p> <p>All direct transactions in units of the Scheme by MMs/APs or other eligible investors with the AMC/the Fund shall be at intra-day NAV based on the actual execution price of the underlying portfolio. Any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for APs/MMs and shall be periodically reviewed.</p> <p>The number of units of the Scheme that investors can create in exchange of the Portfolio Deposit and Cash Component is 2,00,000 units and in multiples thereof.</p> <p>AMC/Trustees reserve the right to change the size of Creation of units in order to equate it with marketable lot of the underlying instrument.</p> <p>No Credit facilities would be extended during the process of Creation of Units.</p> <p>The subscription & redemption of units would be based on the portfolio deposit & cash component or redemption request as defined by the fund for that respective business day as per applicable cut-off time as provided in the Regulation. The Fund may allow cash purchases/cash redemption of the units of the Scheme or by depositing basket of securities comprising the underlying index in Creation Unit Size by Authorised Participant(s)/ Investor(s). However, such purchase/redemption is subject to regulatory cut-off time and no credit facilities would be available.</p> <p>The Portfolio Deposit and Cash Component are defined as follows:</p>

	<p>Portfolio Deposit: This is a pre-defined basket of securities that represent the Underlying Index and will be defined and announced by the Fund on daily basis and can change from time to time.</p> <p>Cash Redemption Option: The Fund may allow cash redemption of the units of the Scheme in Creation Unit size by Large Investors/Authorized Participant. Such investors shall make redemption request to the Mutual Fund / AMC whereupon the Mutual Fund / AMC will arrange to sell underlying portfolio securities on behalf of the investor. Accordingly, the sale proceeds of portfolio securities, after adjusting necessary charges/costs, will be remitted to the investor.</p> <p>Procedure for creation in Creation Unit size: The requisite securities constituting the Portfolio Deposit have to be transferred to the Fund's DP account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC, the AMC will transfer the respective number of units of the Scheme into the investor's DP account.</p> <p>The Fund may allow cash purchases of units of the Scheme by Large Investors/ Authorised Participants. Purchase request for Creation Unit shall be made by such investor to the Fund/AMC where upon the Fund/AMC will arrange to buy the underlying portfolio securities. The portfolio deposit and cash component will be exchanged for the units of the Scheme in Creation Unit size.</p> <p>For redeeming units of the Scheme in creation unit size: The Units of the Scheme in less than Creation Unit cannot be redeemed with the Fund.</p> <p>The Authorised Participant / Large Investor would transfer the requisite number of units of the Scheme to the Fund's designated DP account. On confirmation of the same, the AMC will pay the redemption proceeds in cash into the designated account of Authorised Participant/Large Investor net of expenses.</p> <p>The Fund may allow cash purchases/cash redemption of the units of the Scheme by Large Investor/Authorised Participant. Purchase request/Redemption request shall be made by such investor to the Fund whereupon the Fund shall arrange to buy/sell the underlying portfolio of securities on behalf of the investor.</p> <p>Investors can directly approach the AMC for redemption of units of ETFs, without any exit load, in case of the following scenarios:</p> <ol style="list-style-type: none"> Traded price (closing price) of the Scheme units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or No quotes for the Scheme are available on stock exchange(s) for 3 consecutive trading days, or Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.
--	--

In case of the above scenarios (for transaction upto INR 25 crore), applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.

The unit purchase/sale shall be carried out in unit creation size, by executing market trades in the underlying constituents of the index. If the volume of the constituent(s) is insufficient on any given trade date, the traded price of the day shall be considered for such constituent(s) while issuing the unit purchase/sale confirmation. In such a scenario, portfolio deviation (if any) shall be rectified in the following trading day(s).

Mutual Fund will repurchase units from Authorised Participants and Large Investors on any business day.

Type of investor	Sale of units by Mutual Fund	Redemption of units by unit holders
Authorised Participants / Large Investors*	Any business day in Creation Unit size directly through Mutual Fund	Any business day in Creation Unit size directly through Mutual Fund
Other investors	Only through stockexchange	Only through stockexchange

*For large investors, creation unit size subject to the value of such transaction is greater than threshold of INR 25 Cr. (Twenty-Five crores) and such other threshold as prescribed by SEBI from time to time

Procedure for Redeeming Units in Creation Unit Size:

Redemption proceeds in the form of basket of securities included in the NIFTY MIDCAP 100 TRI in the same proportion will be credited to the designated DP account of the Authorised Participants and Large investors. Any fractions in the number of securities transferable to Authorised Participants and Large investors will be rounded off to the lower integer and the value of the fractions will be added to the cash component payable. The cash component of the proceeds at the applicable NAV will be paid by way of cheque or direct credit.

AMC will endeavour to credit the redemptions payouts directly to the designated Bank A/c Linked with demat a/c of the unitholders of the scheme through any of the available electronic mode (i.e. RTGS / NEFT / Direct Credit). AMC reserves the right to use any of the above mode of payment as deemed appropriate where the required information is available.

In case of unavailability of sufficient details with the Mutual Fund, the redemption proceeds will be made in favour of the Unit holder (registered holder of the Units or, if there is more than one registered holder, only to the first registered holder) with bank account number furnished to the Mutual Fund.

	<p>Investors can directly approach the AMC for redemption of units of ETFs, without any exit load, in case of the following scenarios:</p> <ol style="list-style-type: none"> i. Traded price (closing price) of the Scheme units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or ii. No quotes for the Scheme are available on stock exchange(s) for 3 consecutive trading days, or iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days. <p>In case of the above scenarios (for transaction upto INR 25 crore), applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.</p> <p>Such instances shall be tracked by LIC MF AMC on an ongoing basis and incase if any of the above mentioned scenario arises the same shall be disclosed on the website of LIC Mutual Fund i.e. www.licmf.com</p>

INTRODUCTION TO EXCHANGE TRADED FUND

A) Exchange Traded Fund (ETF)

Exchange Traded Funds are innovative products that provide exposure to an index or a basket of securities that trade on the exchange like a single stock. Exchange Traded Funds have a number of advantages over traditional open ended index funds as they can be bought and sold on the exchange at prices that are usually close to the actual intra-day NAV of the Scheme. Exchange Traded Funds are an innovation to traditional mutual funds as Exchange Traded Funds provide investors a fund that tracks the performance of an index with the ability to buy / sell on an intra-day basis. Unlike listed close ended funds, Exchange Traded Funds are structured in a manner which allows creating new units and redeeming outstanding units directly with the fund, thereby ensuring that Exchange Traded Funds trade close to their actual NAVs.

Exchange Traded Funds are usually passively managed funds wherein subscription / redemption of units works on the concept of exchange with underlying securities. In other words, large investors / institutions can purchase units by depositing the underlying securities with the fund / AMC and can redeem by receiving the underlying shares in exchange of units. Units can also be bought and sold directly on the exchange.

Exchange Traded Funds have all the benefits of indexing such as diversification, low cost and transparency. As Exchange Traded Funds are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the investors in the form of lower costs. Furthermore, exchange traded mechanism helps reduce minimal collection, disbursement and other processing charges.

The structure of Exchange Traded Funds is such that it protects long-term investors from inflows and outflows of short-term investor. This is because the fund does not bear extra transaction cost when buying / selling due to frequent subscriptions and redemptions.

Tracking Error of Exchange Traded Funds is likely to be low as compared to a normal index fund. Due to the Creation / Redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying / selling units and the underlying shares is much lower.

Exchange Traded Funds are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

Benefits of EXCHANGE TRADED FUNDS

1. Can be easily bought / sold like any other stock on the exchange through terminals spread across the country.
2. Can be bought / sold anytime during market hours at prices that are expected to be close to actual NAV of the Scheme. Thus, investor invests at real-time prices as opposed to end of day prices.
3. No separate form filling for buying / selling units. It is just a phone call to your broker or a click on the net.
4. Ability to put limit orders.
5. Minimum investment for an Exchange Traded Fund is one unit.
6. Protects long-term investors from the inflows and outflows of short-term investors.
7. Flexible as it can be used as a tool for gaining instant exposure to the equity markets, hedging or for arbitraging between the cash and futures market.
8. Helps in increasing liquidity of underlying cash market.
9. An investor can get a consolidated view of his investments without adding too many different account statements, as Exchange Traded Funds will be in demat form.

Uses of EXCHANGE TRADED FUNDS:

1. **Investors with a long-term horizon:** Allows diversification of portfolio at one shot, thereby reducing scrip specific risk at a low cost.

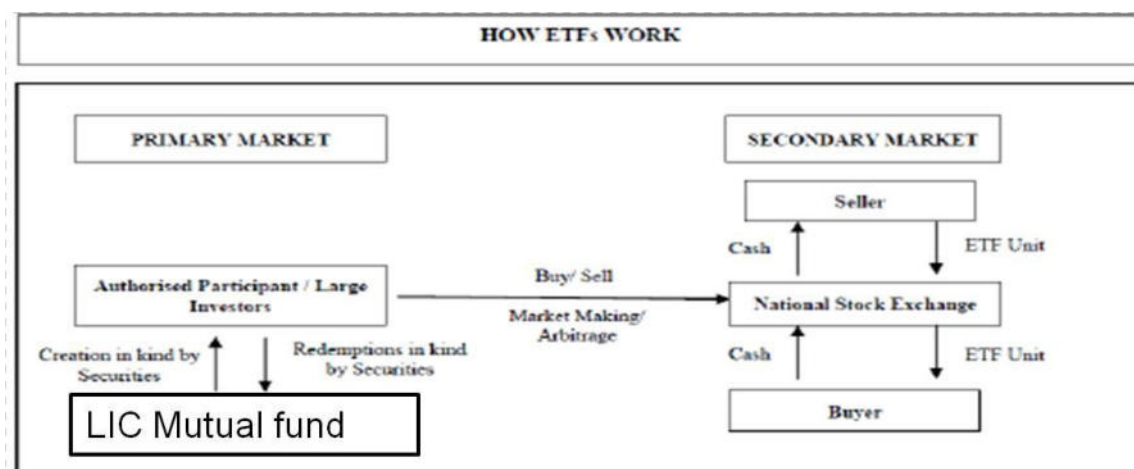

2. FPIs, Institutions and Mutual Funds: Allows easy asset allocation, hedging at a low cost.

3. Investors with a shorter term horizon: Allows liquidity due to ability to trade during the day and expected to have quotes near NAV during the course of trading day.

Comparison of EXCHANGE TRADED FUNDS v/s Open Ended Funds v/s closes Ended Funds:

	Open Ended Fund	Closed Ended Fund	Exchange Traded Fund
Fund Size	Flexible	Fixed	Flexible
NAV	Daily	Daily	Real time (indicative NAV)
Liquidity provider	Fund itself	Stock Market	Stock Market / Fund itself
Sale price	At NAV plus load, if any	Significant premium / discount to NAV	Very close to actual NAV of Scheme
Availability	Fund itself	Through Exchange where listed	Through Exchange where listed /Fund itself.
Portfolio disclosure	Disclosed monthly/ Fortnightly (as applicable)	Disclosed monthly	Daily
Intra-day trading	Not possible	Expensive	Possible at low cost

An illustration of the working of EXCHANGE TRADED FUND is given below:

B) Investment Process and Recording of Investment Decisions

The AMC through its various policies and procedures defines prudential and concentration limits to de-risk the portfolio. The investment management team is allowed full discretion to make sale and purchase decisions within the limits established. The responsibility for the investment decisions is with the portfolio managers and the CEO of the AMC does not have any role in the day to day decision making process. All the decisions will be recorded along with their justifications. The AMC and Trustee will review the performance of the scheme in their Board meetings. The performance would be compared with the performance of the benchmark index and with peer group in the industry.

C) Intra/Inter Scheme Investments

The Scheme may, in line with its investment objectives, invest in another Scheme under the management of AMC or of any other Asset Management. The aggregate Inter-scheme investment by LIC MF under all its

Schemes, other than fund of fund schemes, taken together, in another Scheme managed by AMC or in any other Scheme of any other Mutual Fund, shall not be more than 5% of the net asset value of the Fund. No fee shall be charged by the AMC on any investment in another Scheme under the management of AMC or of any other Asset Management.
