Fund Facts

TECHNOLOGY

YOUR INVISIBLE PARTNER ALL DAY

Technology is intertwined in our daily lives

Technology Landscape transcends conventional I.T. services

Fin-Tech

Digital financial services

Consumer-Tech

Technology-led consumer engagement

Travel-Tech

Technology-powered travel services

Edu-Tech

Learning enabled through Technology

Auto-Tech

Software-driven mobility

Health-Tech

Digital healthcare solutions

Technology

Technology's influence has moved past core IT functions. It has moved to be core lifestyle

How technology is intertwined in our daily lives

From Sunrise to Bedtime – Technology Powers Every Moment

Technology is Your Invisible Partner All Day

From physical stores to
anytime, anywhere digital
commerce

From vintage cars to
future ready mobility

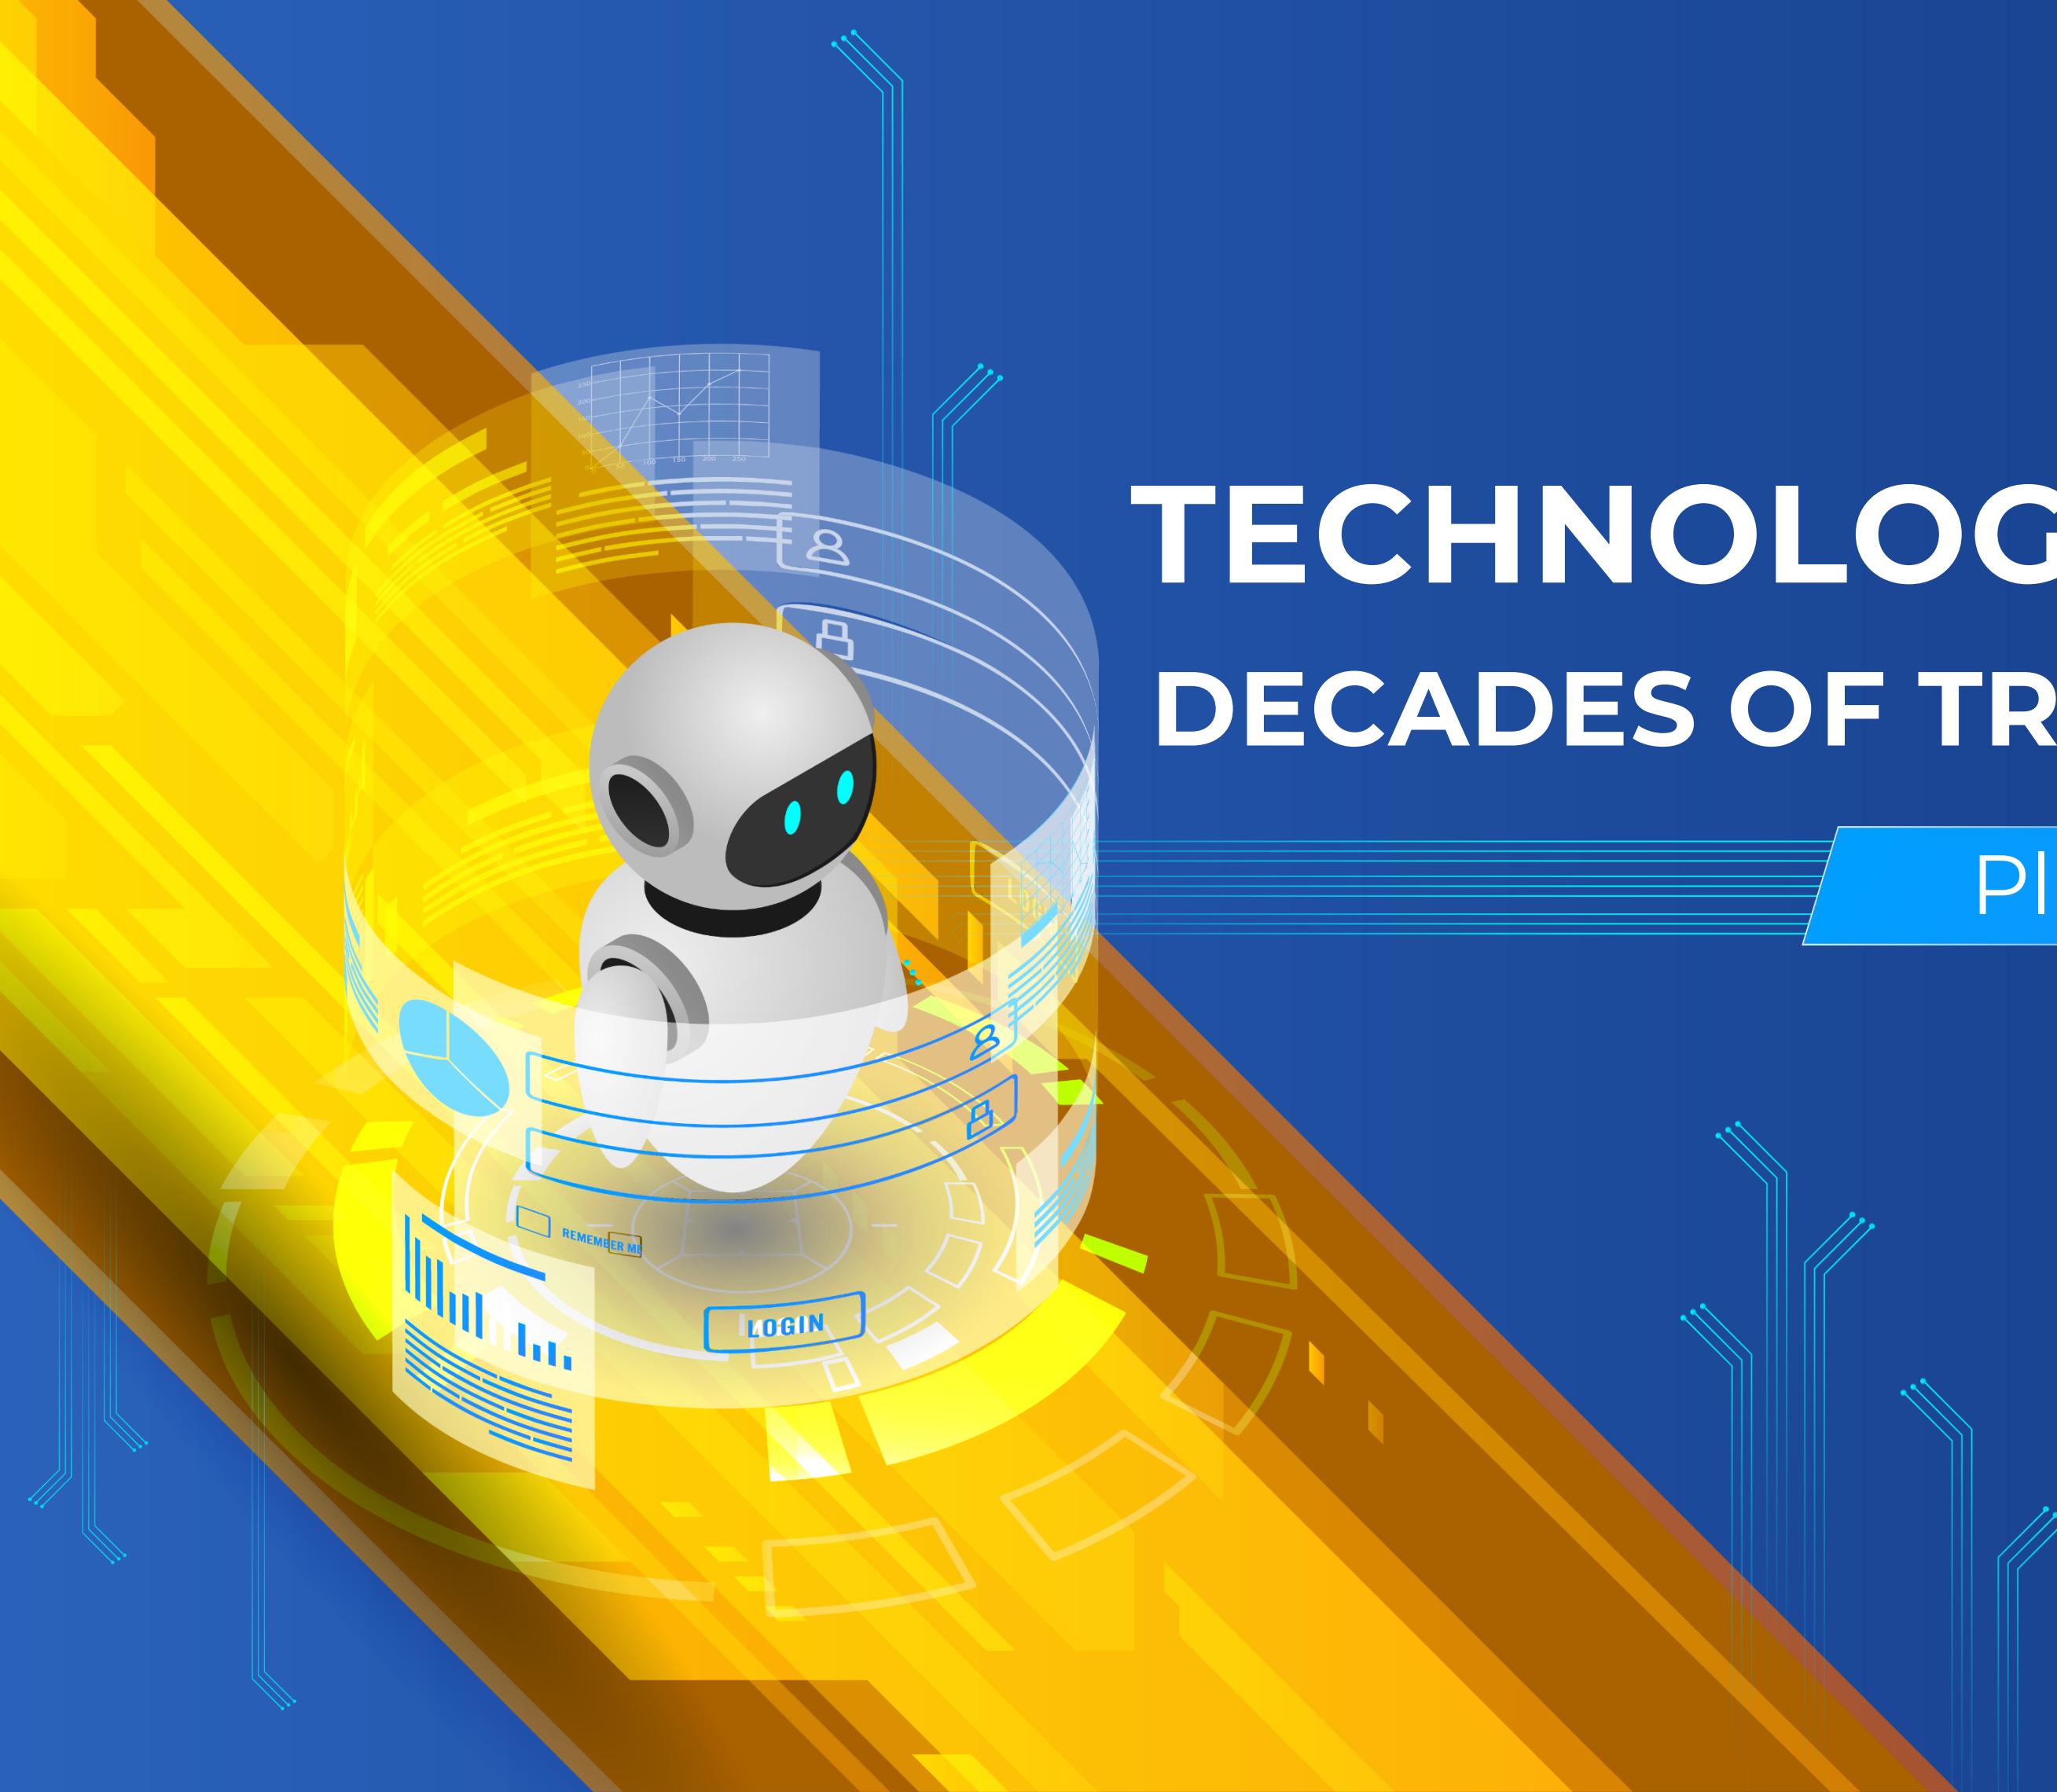

From branch-led
transactions to mobile-
first financial access

The way we function has clearly changed over time with TECHNOLOGY being an ENABLER

TECHNOLOGY REVOLUTION

DECADES OF TRANSFORMATION

Platform shifts in the past

Technology Revolution: Decades of Transformation

Offices started digitizing, basic home computing

The Dawn of Personal Computing

1990s

2000s

Always connected, social networking explodes

Mobile & Connectivity

2010s

2020s

Digital Economy
Cashless transactions, on-demand entertainment

Smart homes, predictive analytics, autonomous tech

AI & Automation

2025s

From floppy disks to AI – Technology has reshaped life, work, and wealth creation

US Demand Indicators turn supportive for IT Services Growth

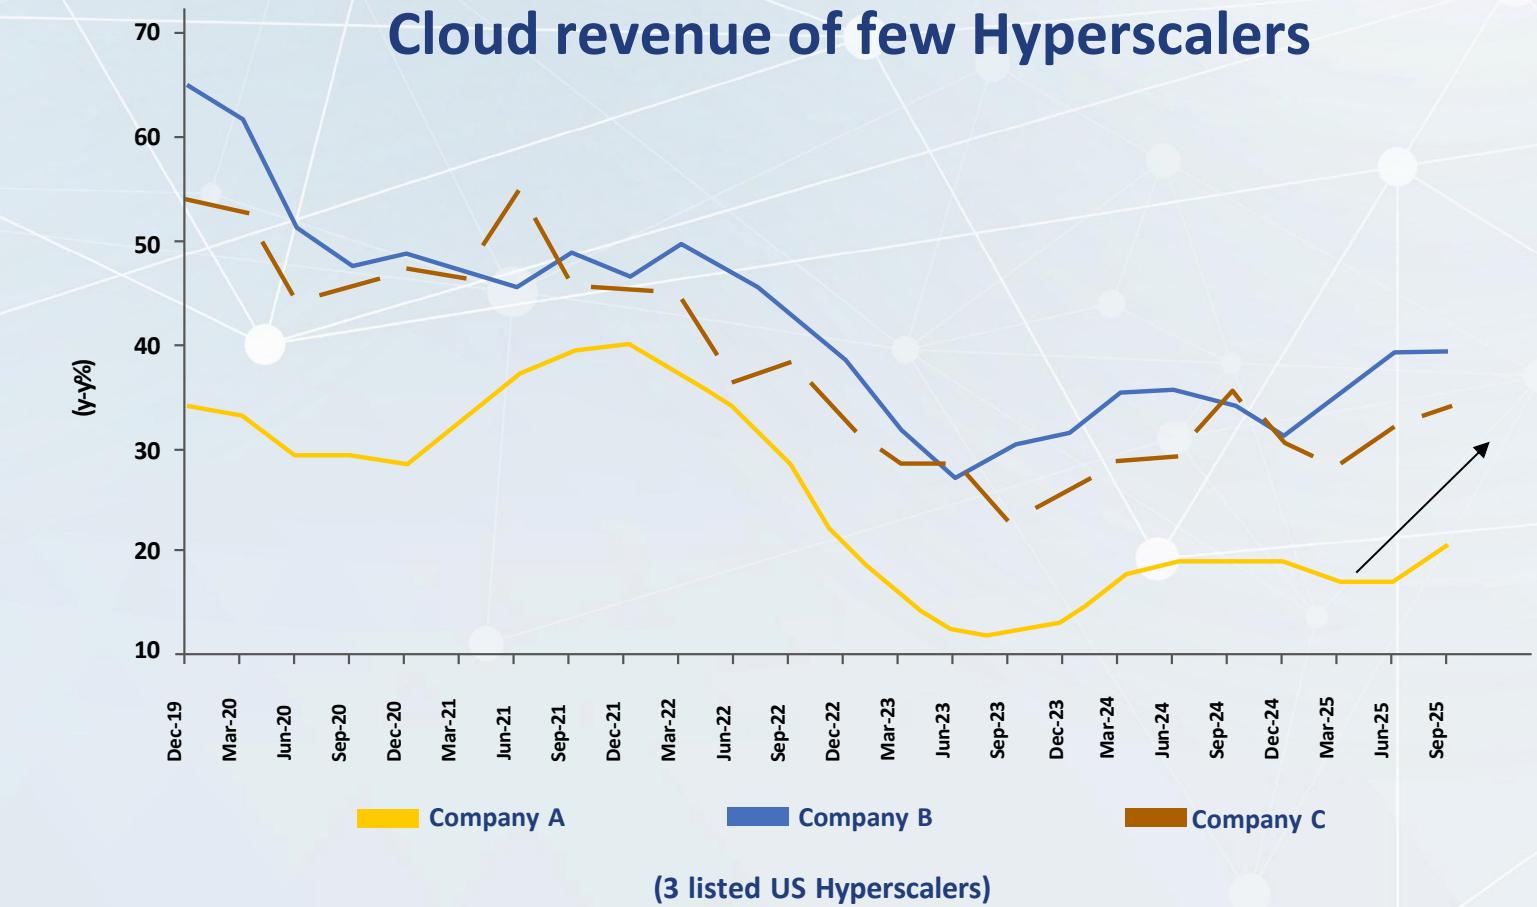

US IIP growth vs top 5 India IT Services revenue growth

US nominal GDP growth

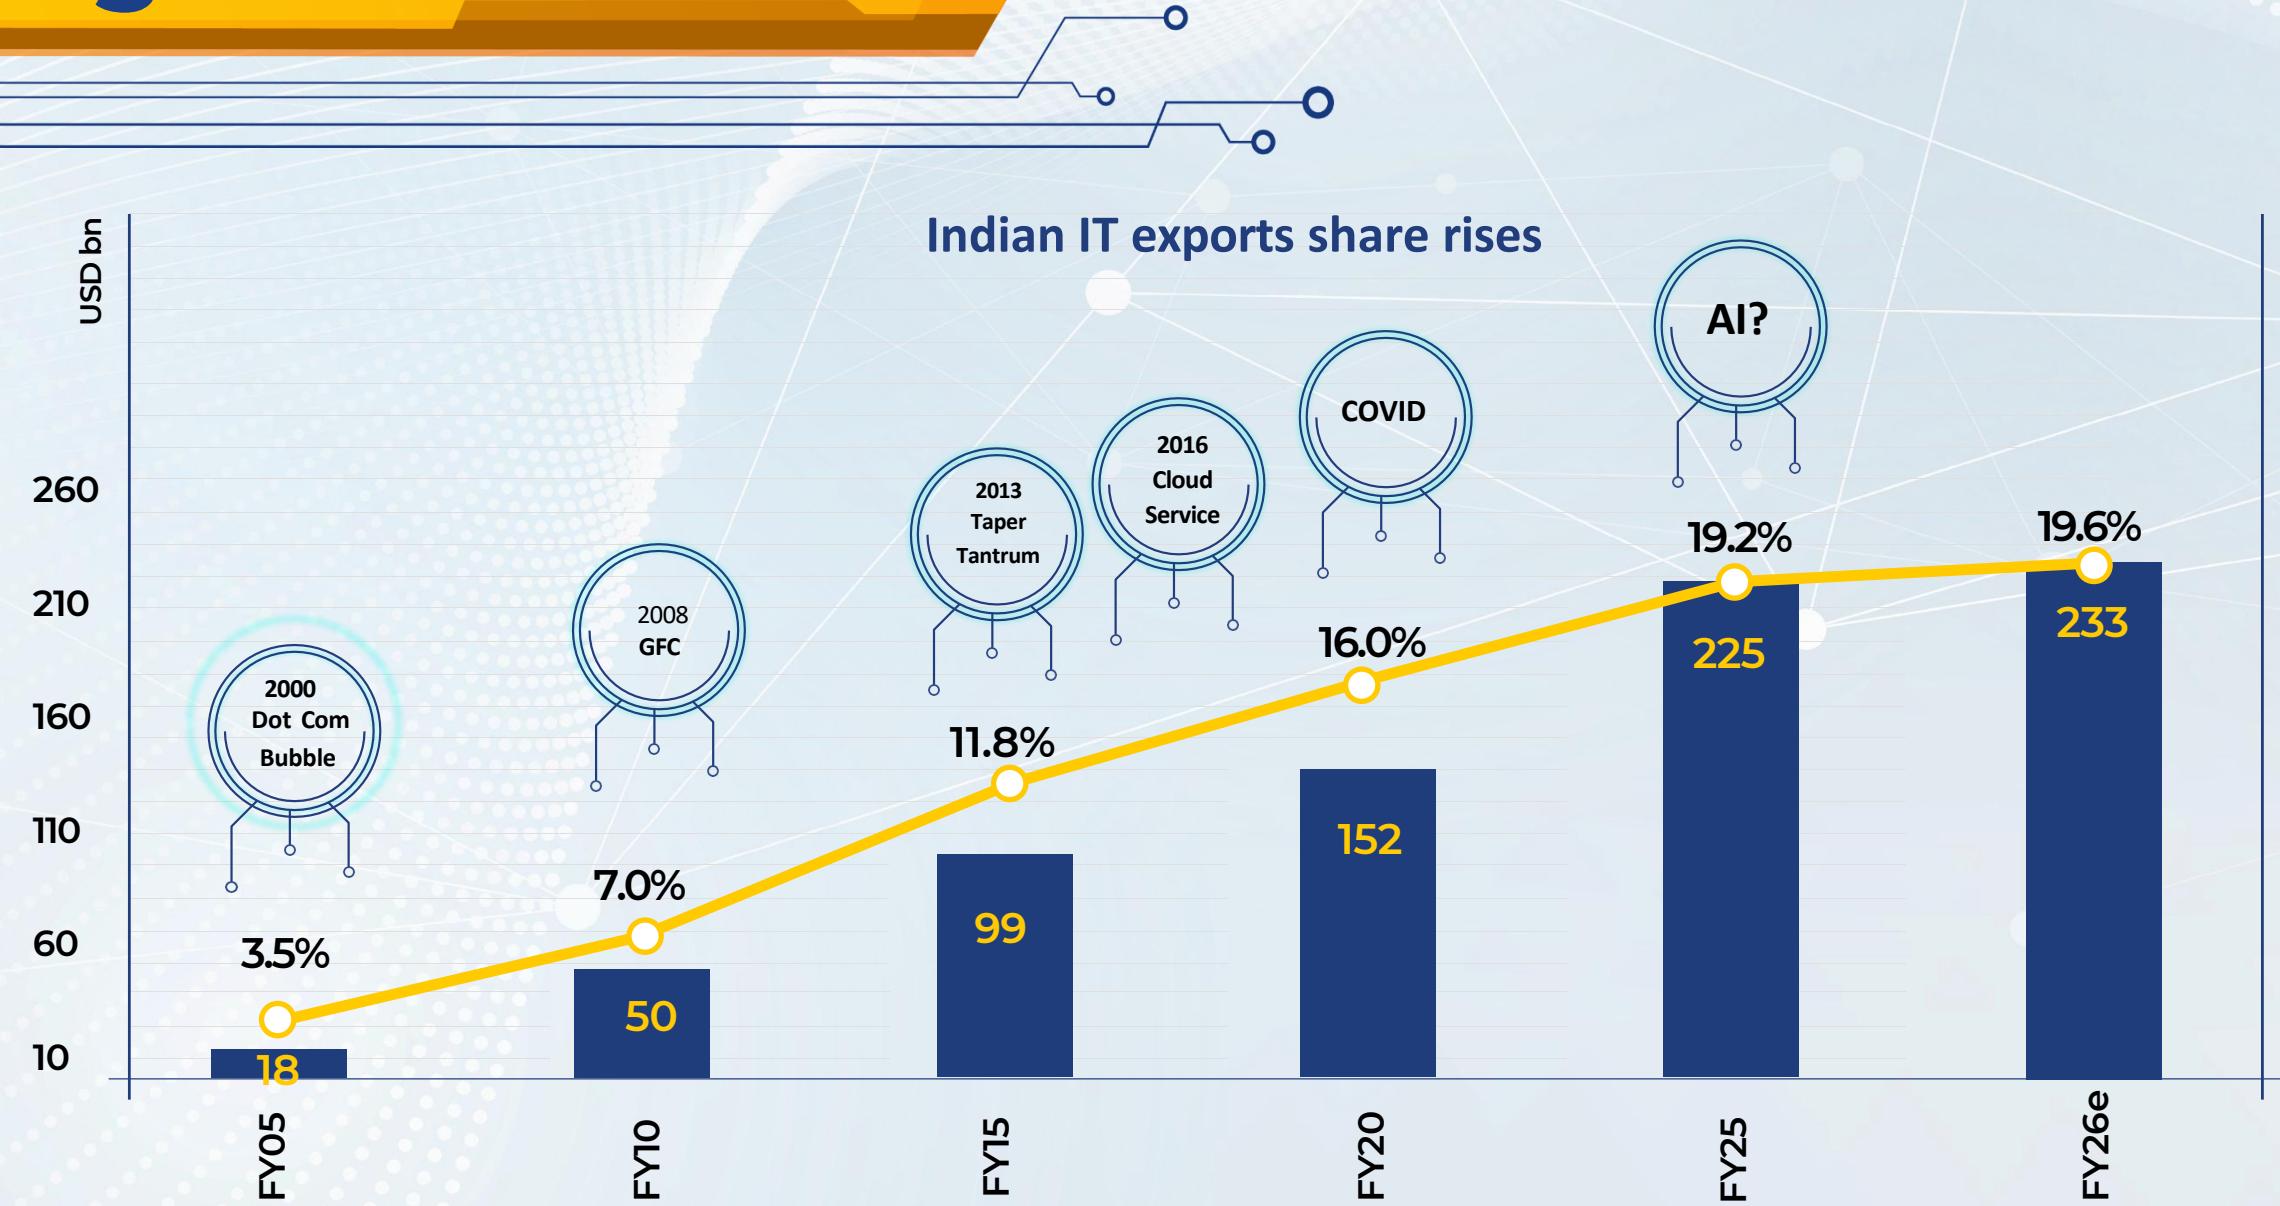

Cloud revenue of few Hyperscalers

- High correlation of IT services revenue growth and the US Industrial production growth
- US industrial production is seeing a strong recovery; US nominal GDP growth slowdown appears to have bottomed out with a strong acceleration in Sep '25 quarter
- Hyperscalers' cloud revenue growth starting to pick up again

Indian IT exports have weathered past global events

- In the past too, multiple global events have taken place where the future of the Indian markets particularly the exports related share were under question
- Indian IT companies have weathered this and their export size has increased to over 225 Billion US\$ and the market share has expanded from ~3.5% in FY05 to 19.2% by FY25

2025 marks the year of uncertainty around AI. Would history repeat itself or will it rhyme this time

LIC MF TECHNOLOGY FUND

An open-ended equity scheme investing in technology & technology-related companies

Ride the T.I.D.E. of Innovation

Turn everyday digital habits into an investment opportunity
Technology, Internet and Digital, Data Centers and ancillary and E-commerce/Q-commerce

Investment Strategy – T.I.D.E.

Technology

- Core enablers of enterprise digitisation and productivity.
- Includes IT services, software, cloud, AI led services.

Internet and Digital

- Platform-led digital consumption and services.
- Covers e-commerce, fintech, consumer tech, and digital ecosystems.

Data Centers and Ancillary

- Backbone of the digital economy.
- Encompasses data centers, telecom, networking, and cloud infrastructure.

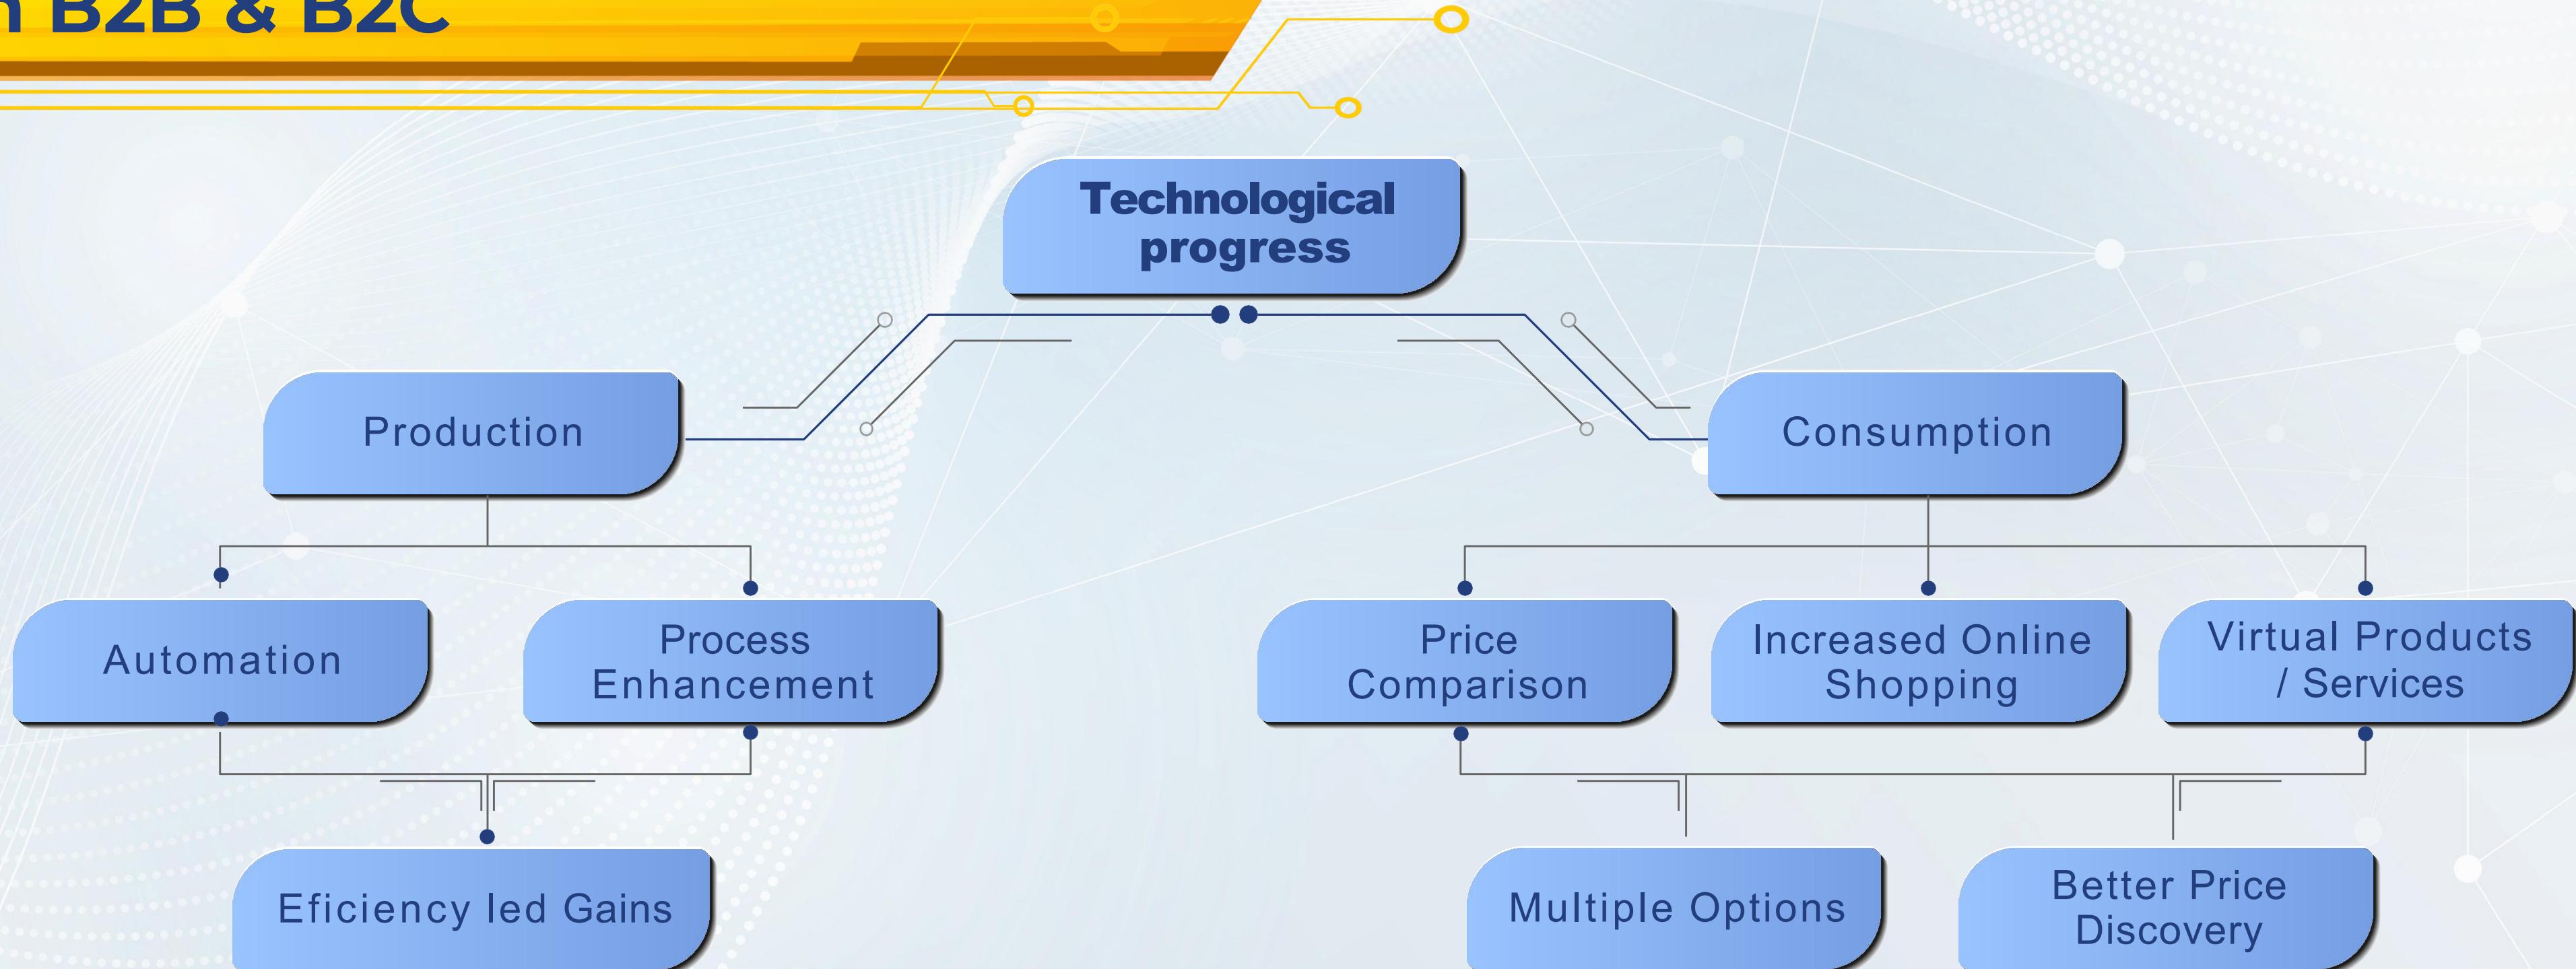

E-commerce/ Q-commerce

- Technology-driven consumption models.
- Focus on online, mobile / web based, and convenience-led commerce.

T - Technology - Then & Now

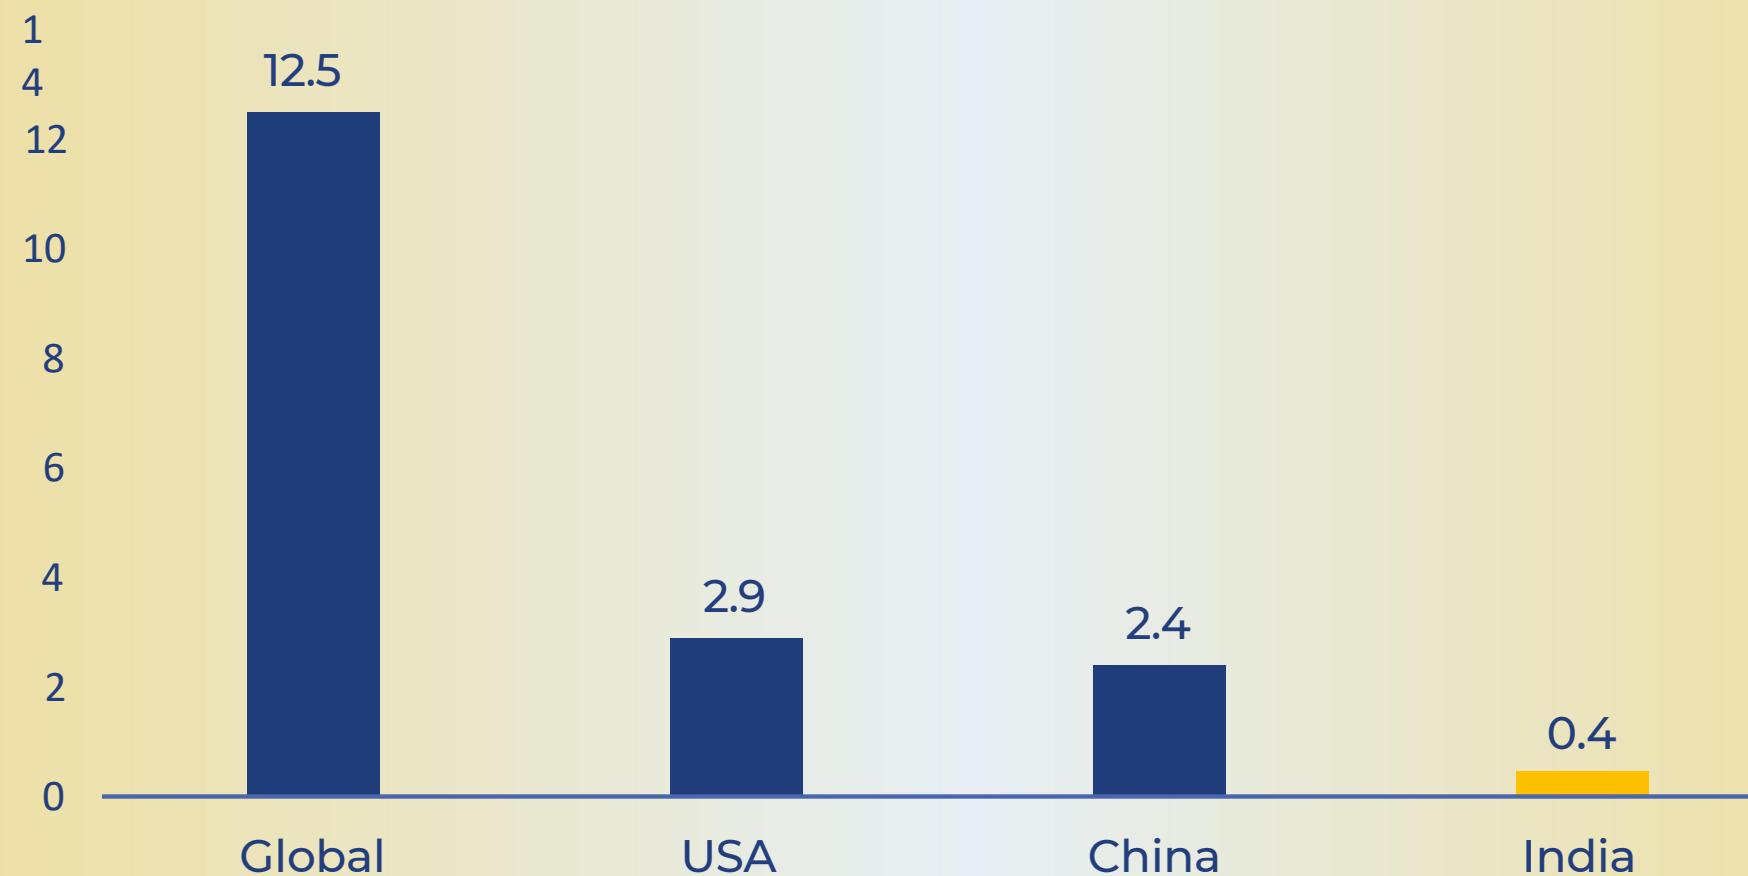

T - Technology - Progress made on B2B & B2C

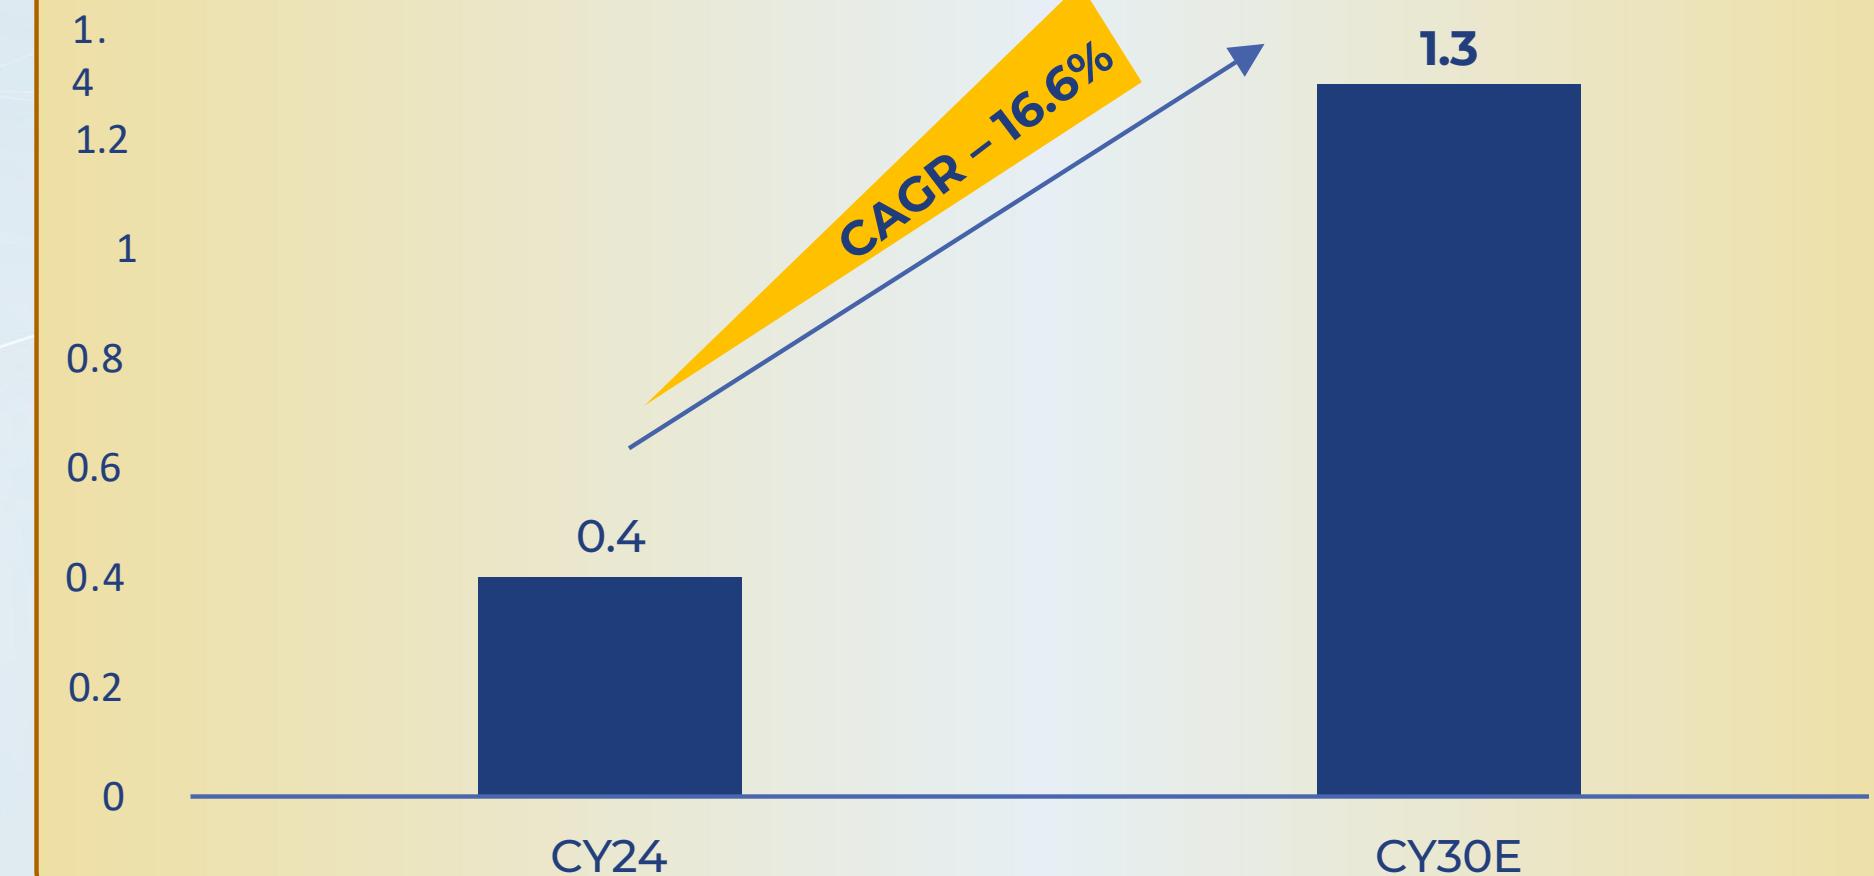

Technological progress creates a virtuous cycle where efficiency gains lower costs for businesses while improving affordability, choice, and convenience for consumers.

I - Internet & Digital - India's Digital Economy

Size of Digital Economy in USD Trillion

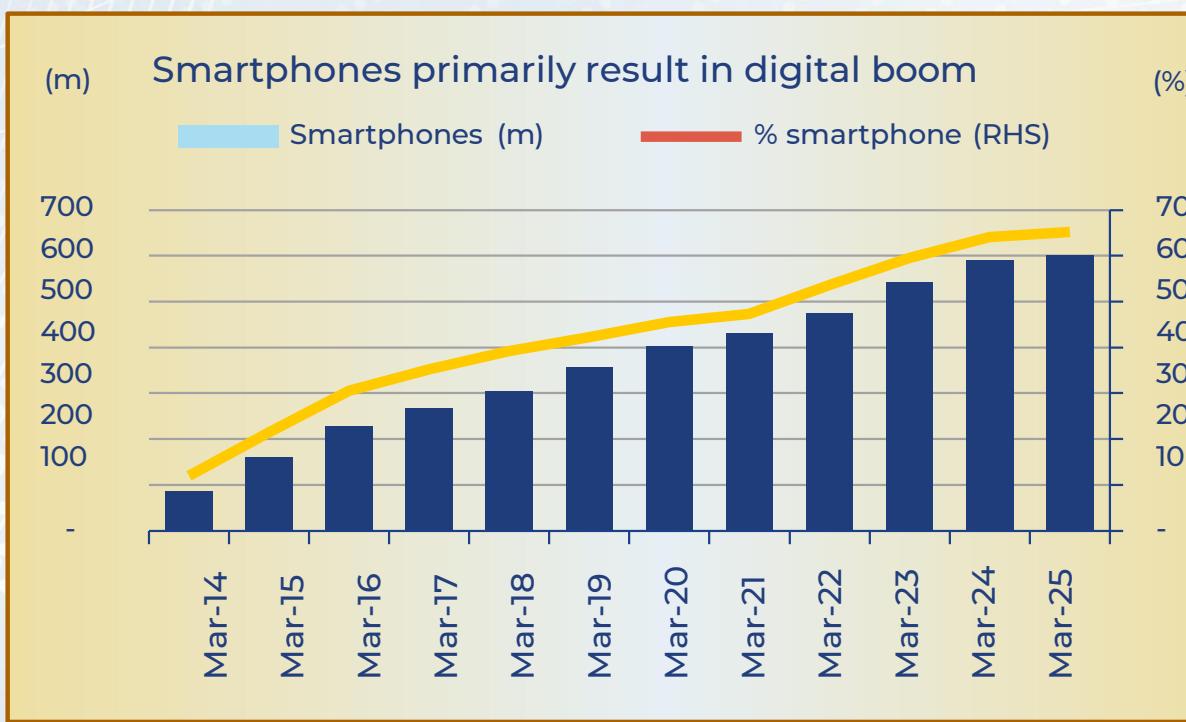

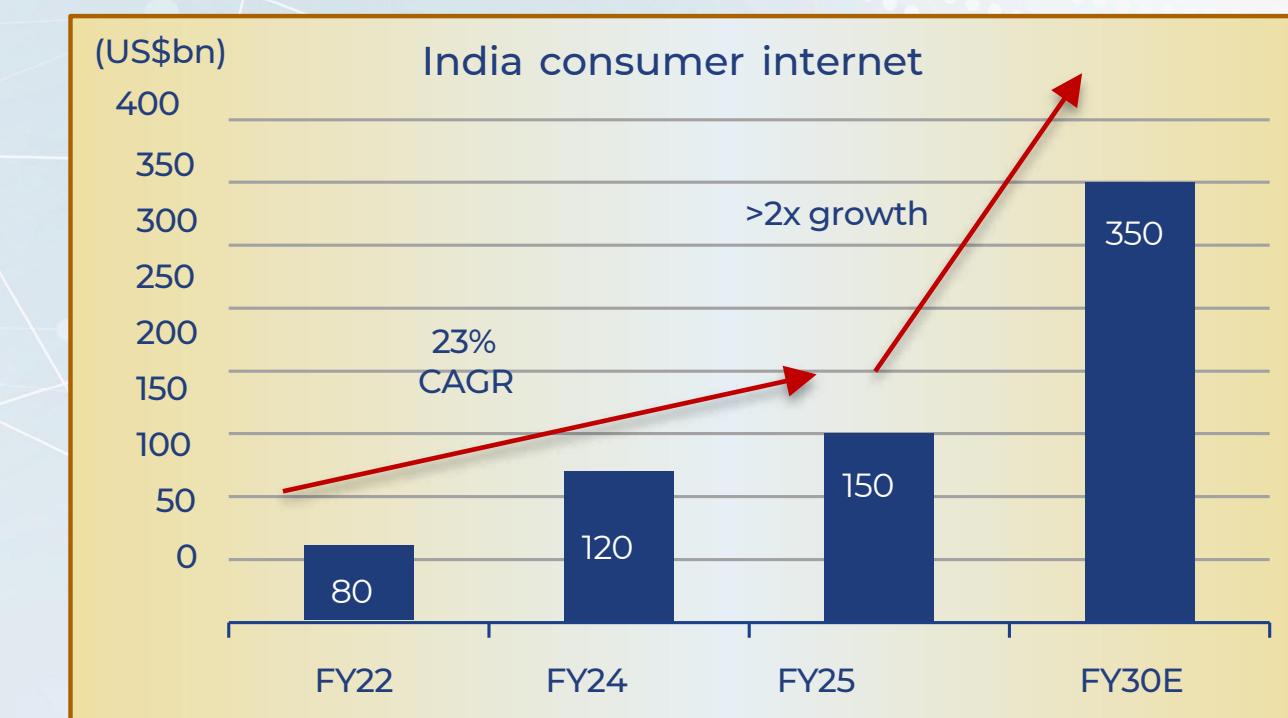

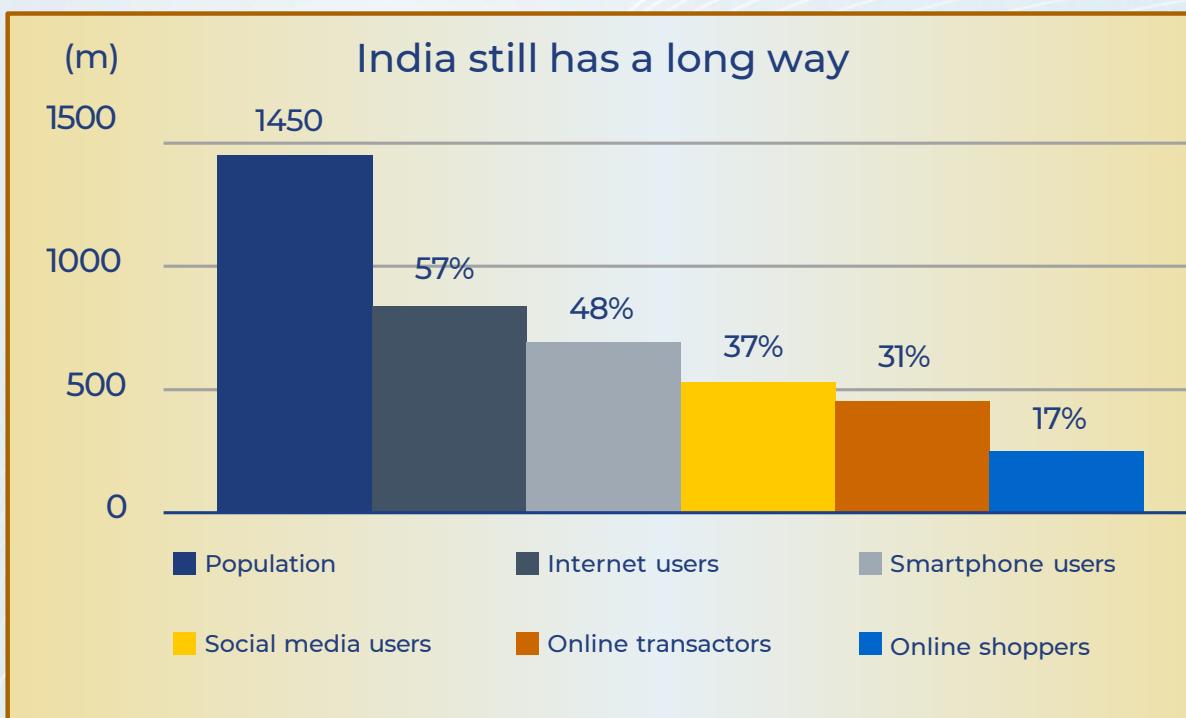

Indian Digital Economy expected to triple in 6 yrs

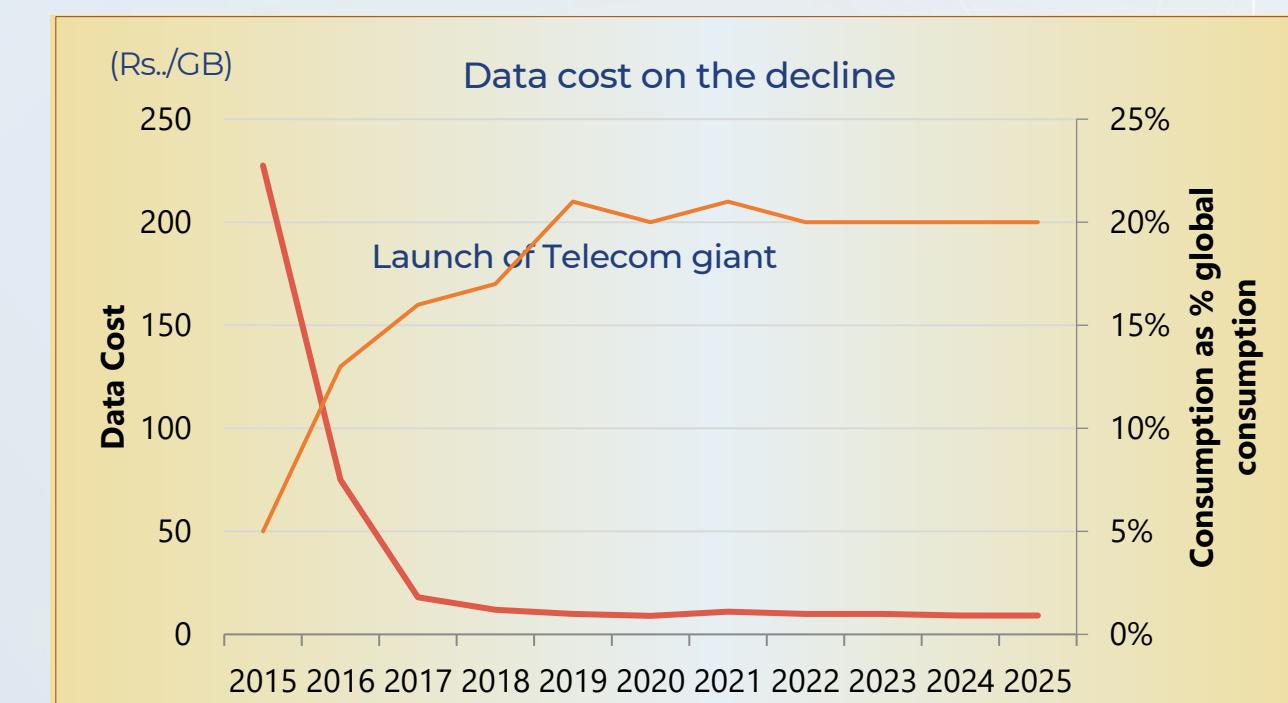

- **Large global runway:** Global digital economy ~USD 12.5 Trillion vs India ~USD 0.4 Trillion, indicating significant catch-up potential
- **Fastest scale-up:** India expected to triple to ~USD 1.3 Trillion by CY30E at ~16.6% CAGR

I - Internet & Digital-Internet penetration on the rise

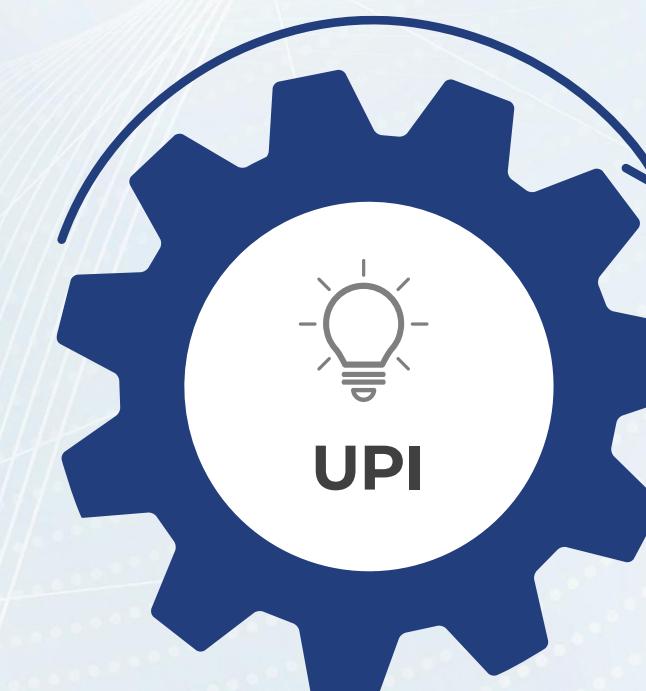

India represents a large, under-monetised digital user base that is rapidly scaling in e-commerce value as data costs reduce and online adoption deepens

I - Internet & Digital-Internet penetration on the rise

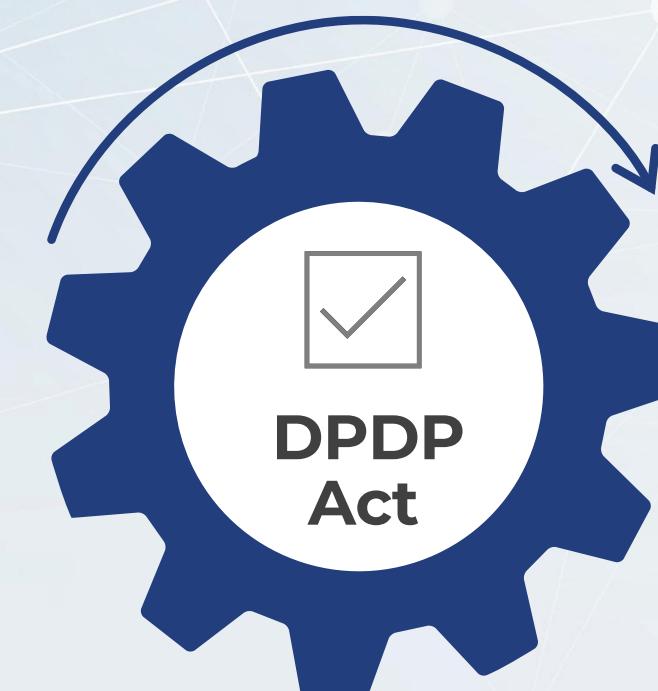

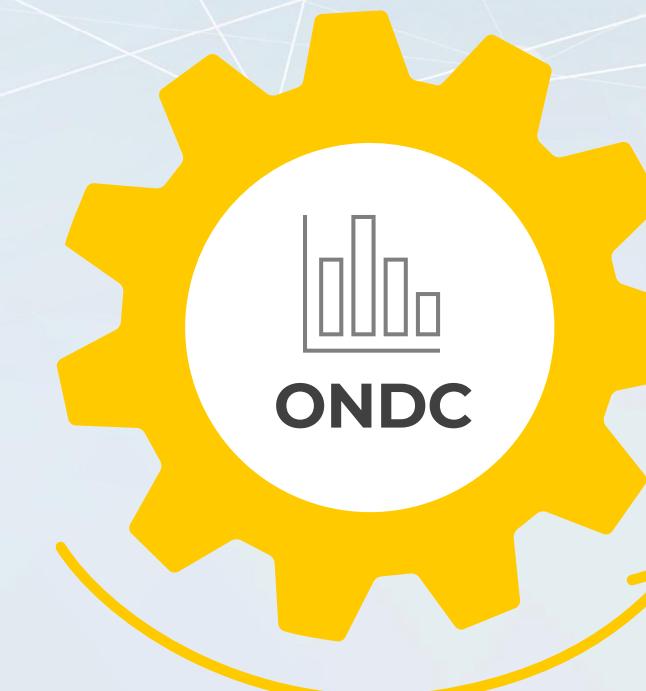

A real-time, interoperable digital payments platform enabling instant bank-to-bank transfers at scale

A secure digital repository allowing citizens to store and share verified documents electronically

A statutory data protection framework governing consent, storage, and use of personal digital data

A paperless, instant identity verification system that reduces onboarding time and compliance costs

An open network that democratises digital commerce by unbundling platforms from buyers and sellers

India represents a large, under-monetised digital user base that is rapidly scaling in e-commerce value as data costs reduce and online adoption deepens

D - Data: New Oil. Data centers: Engine Room.

- **Data Localisation** is a key priority for Government
- India holds only **3% of global data center capacity** but drives **21% of global mobile data consumption**
- Indian Government wants to **expedite shift of India data stored outside the country** to domestic DCs

Large demand, low installed capacity, and a policy nudge toward localisation = multi year infrastructure build out with broad ancillary beneficiaries.

D – Data Centers and Ancillary – uptick expected

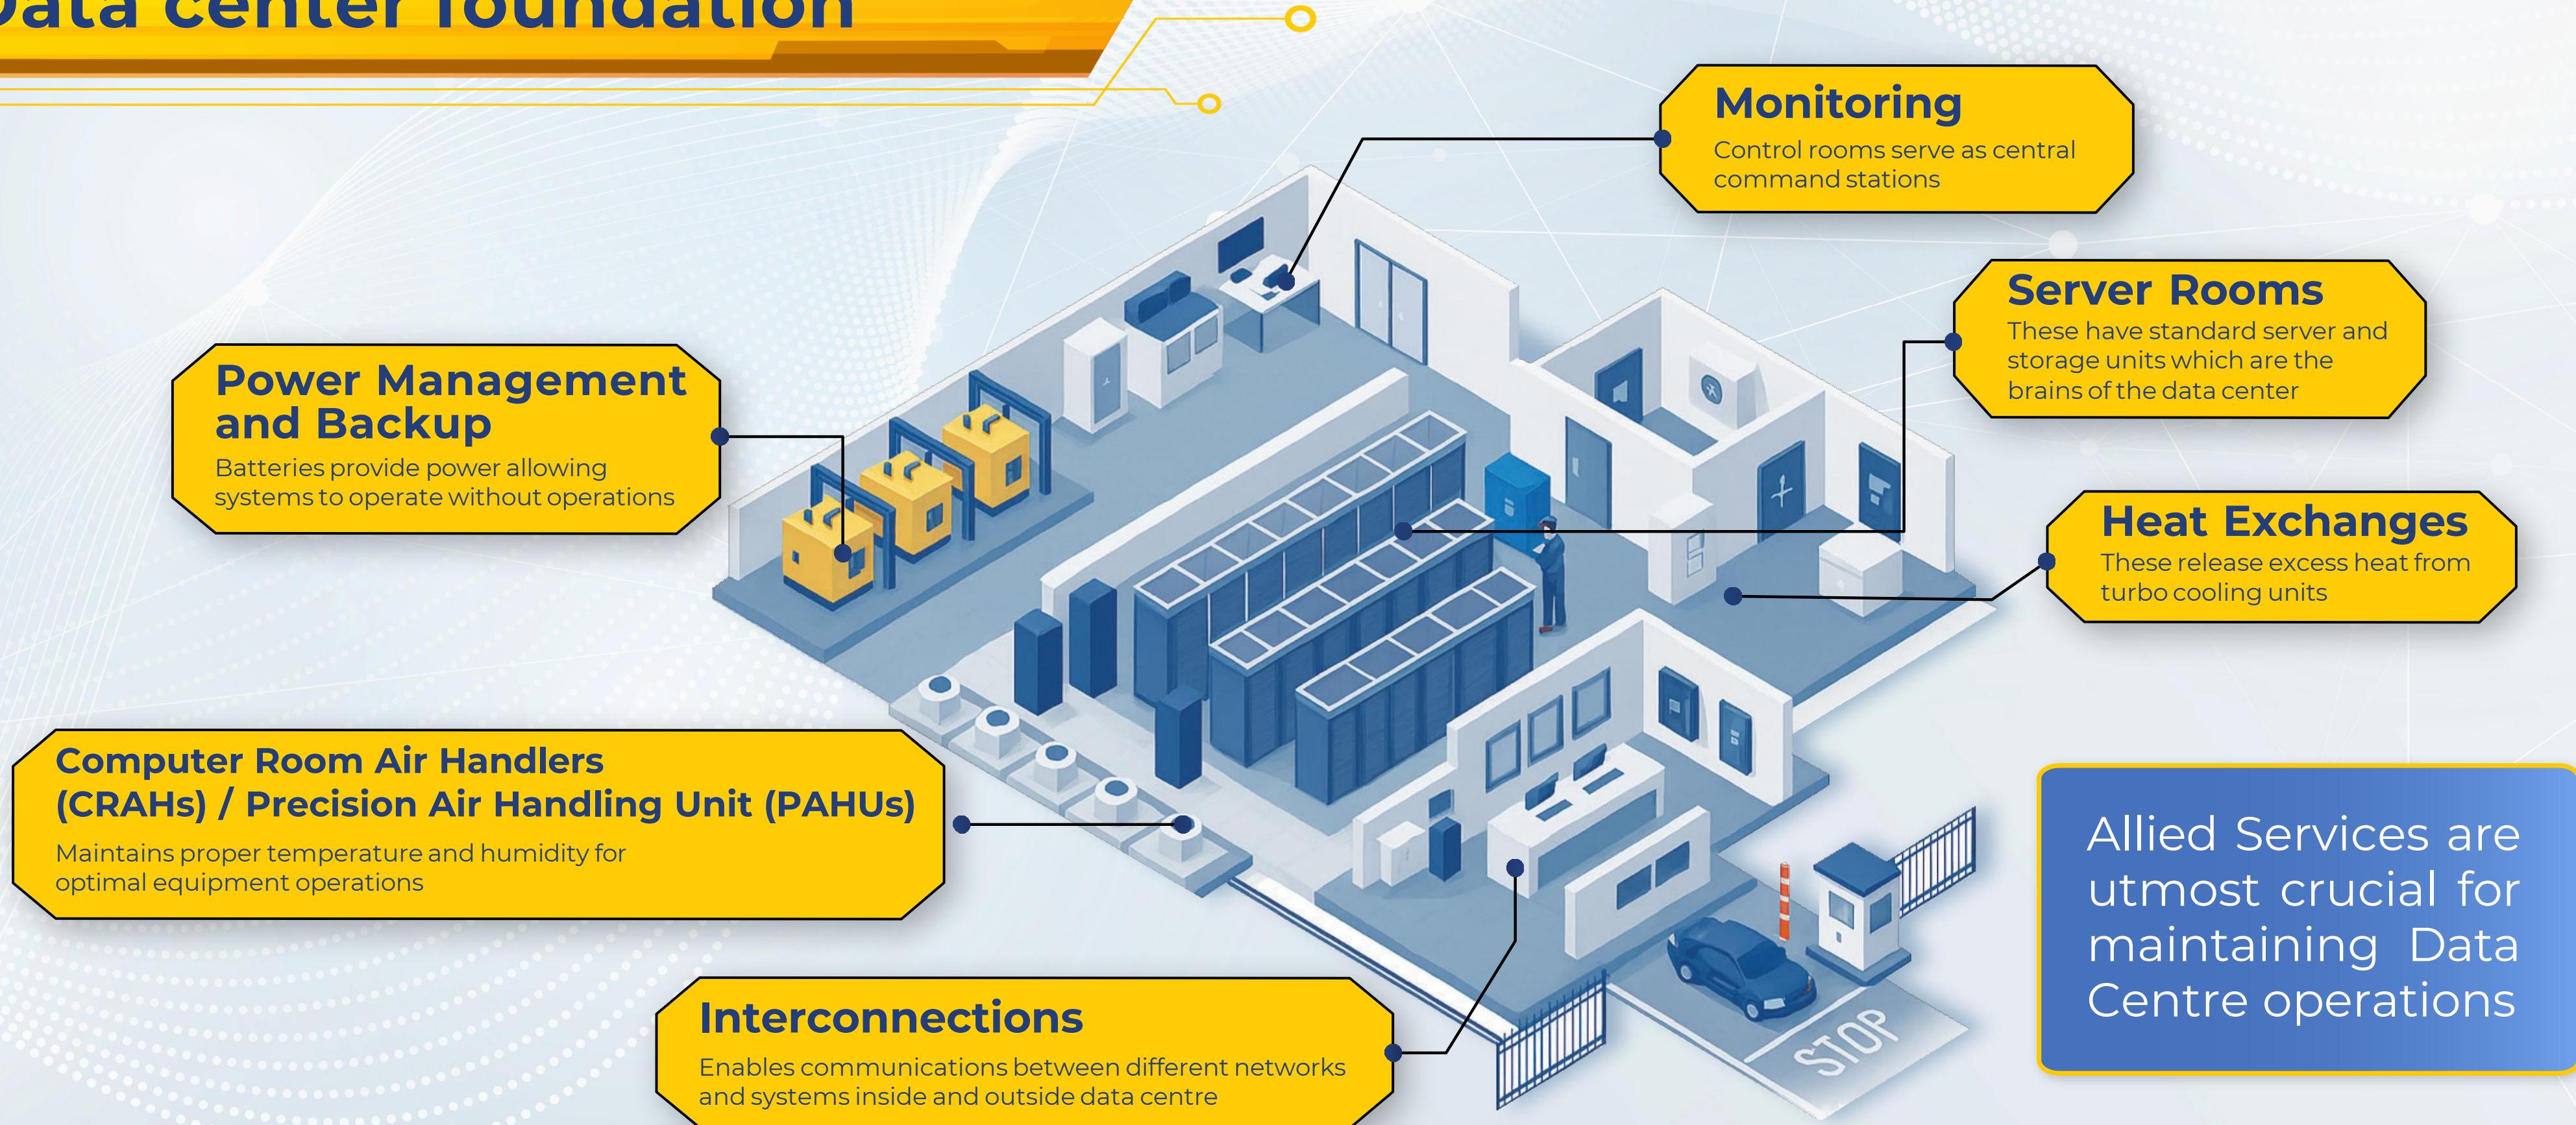

Rising data needs led to hyperscale DC construction, with occupiers adopting hybrid and multi-cloud models.

Data usage soared due to falling prices, post-demonetisation digital payments, and telecom giant rollout in 2016

AI: Generative AI has opened a world of possibilities, resulting in a significant surge in compute usage across multiple applications; expected to create a second stream of data center demand comparable to the cloud

D - Data Centres and Ancillary – Data center foundation

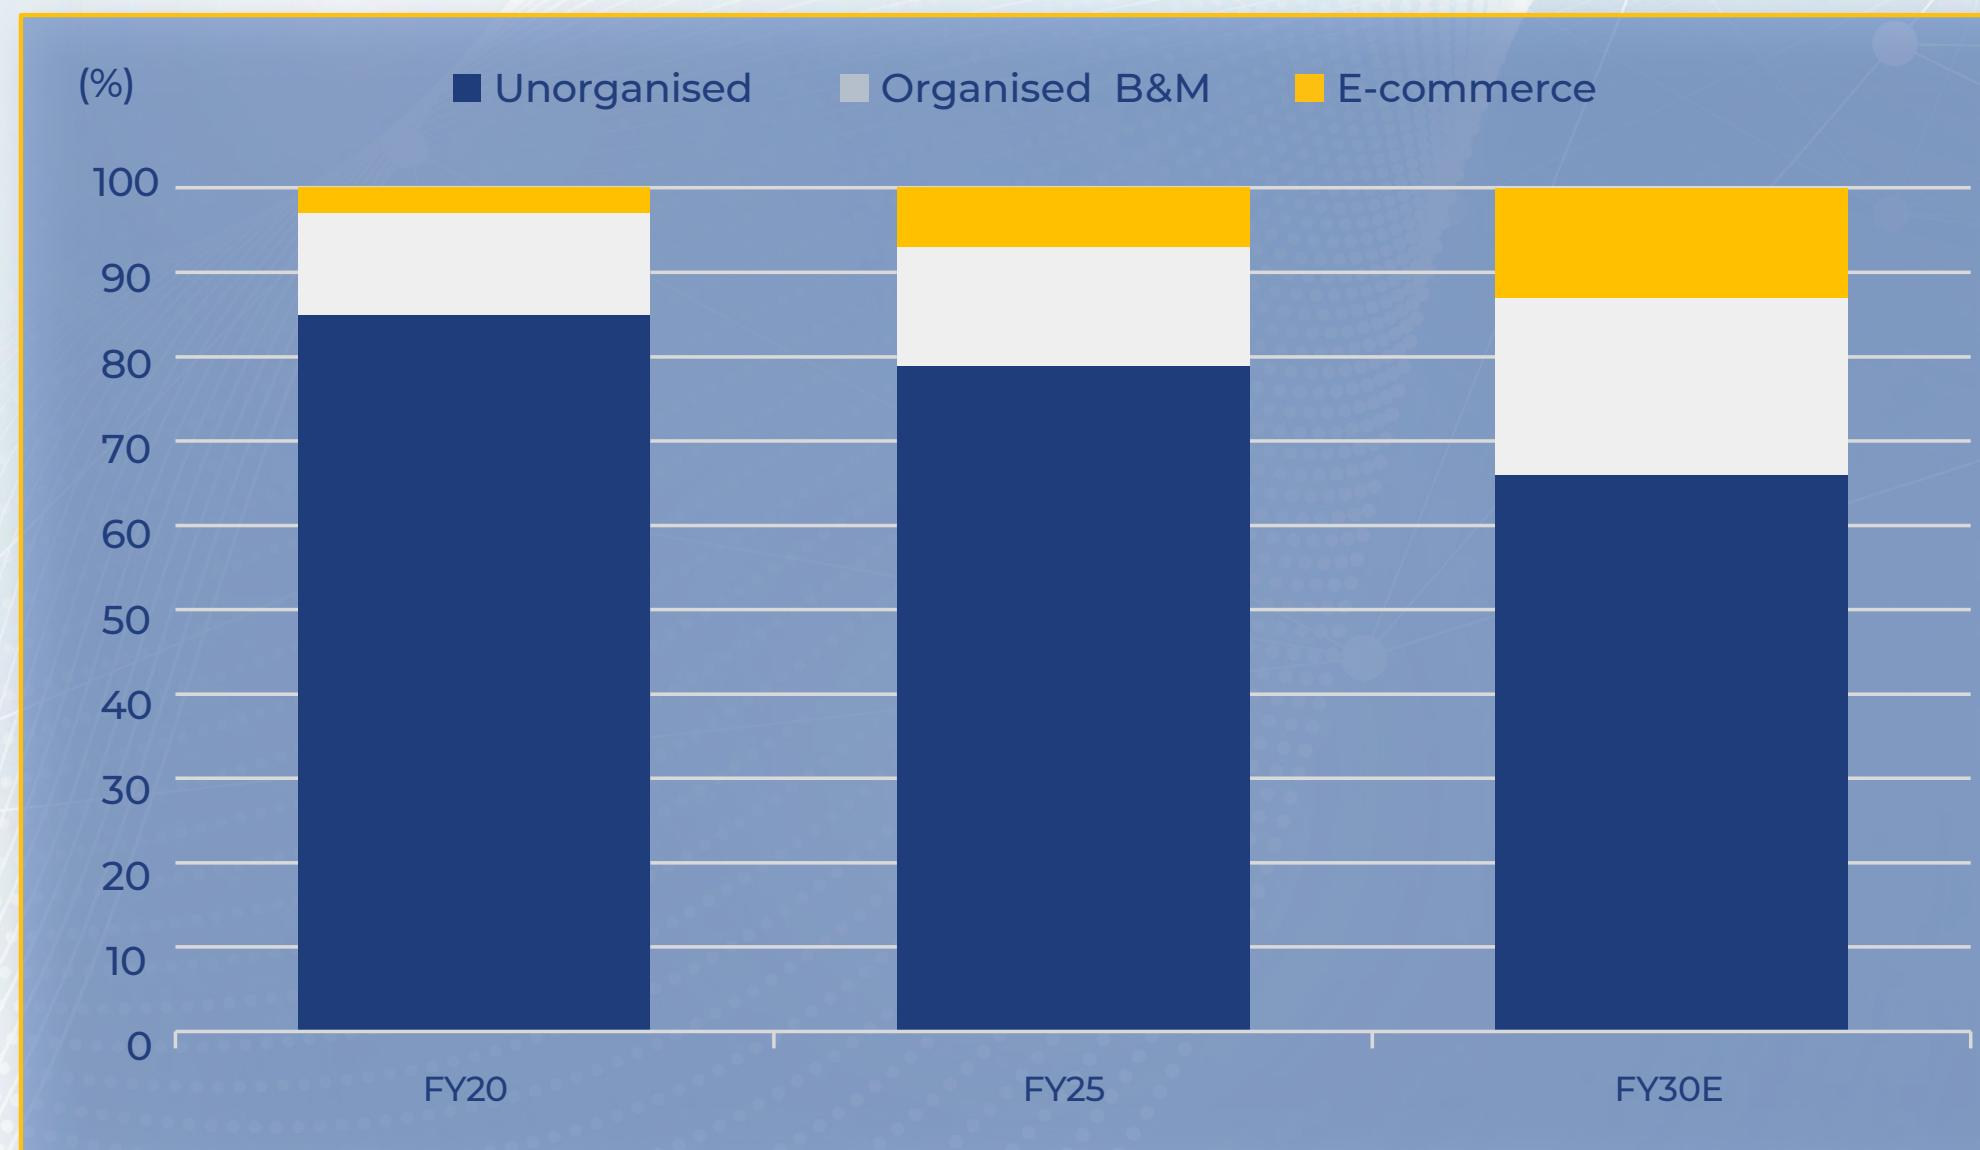

D- Data Centres and Ancillary- Advantage Ancillary

Category	Functions	Potential Incremental Demand (Annual) from Data center Capex (Rs. bn)
EPC	Designing and engineering Construction Networking	20-25
IT Equipment		13-15
Thermal /Cooling Equipment	Computer Room Air Handlers (CRAHs) / Precision Air Handling Unit (PAHUs) Chillers / Heat Exchangers Cooling Towers	30-35
Electrical	Backup Diesel Generators UPS Switchgears Power Distribution Units and Bus Ways Industrial Cables	35-40
Miscellaneous	Racks Optical Fiber Raised Floor Dielectric Fluid Gas Separation Unit DC Management Infrastructure System Security Cameras and Cybersecurity	20-25

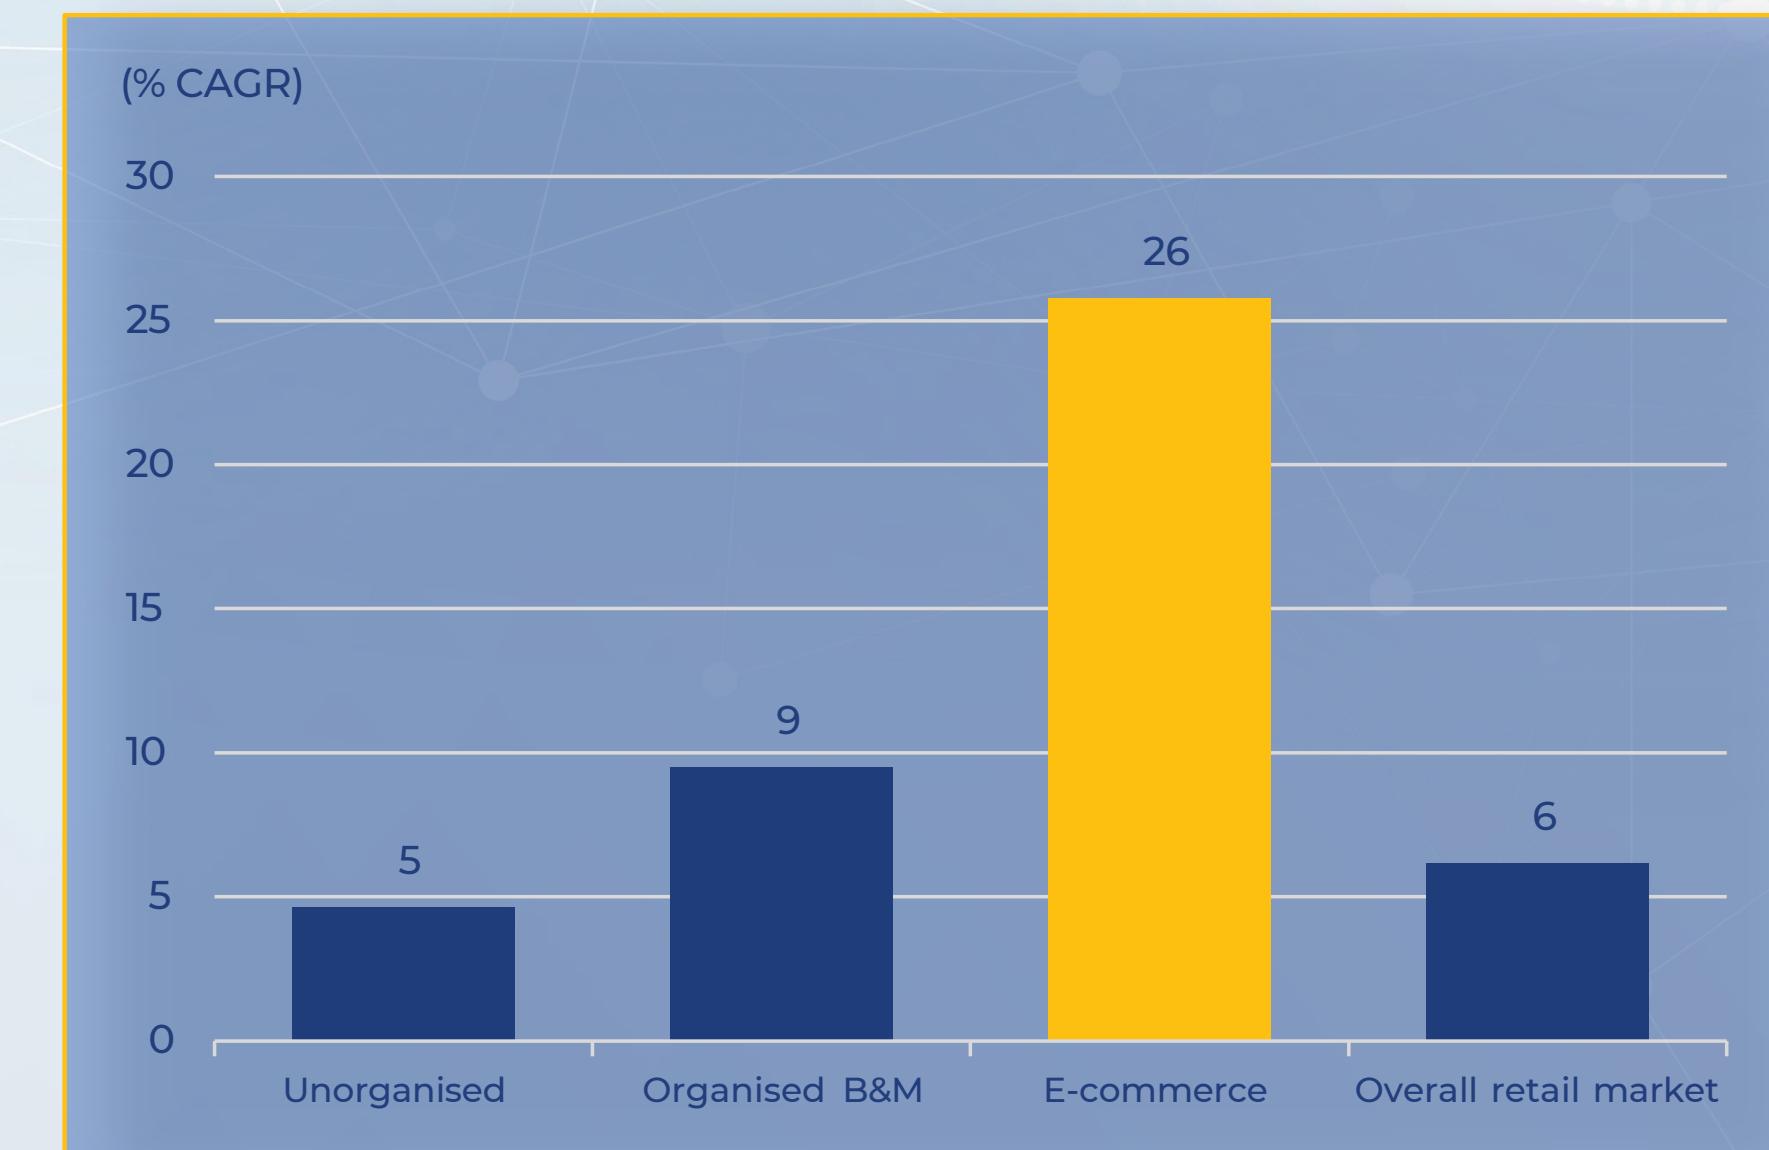

Ancillaries expected to be beneficiaries of the increase in Data Centres in the country

E - Ecommerce & Qcom - Ecom on upward growth trajectory

Retail Channel Mix: Unorganised vs B&M vs E-commerce (%)

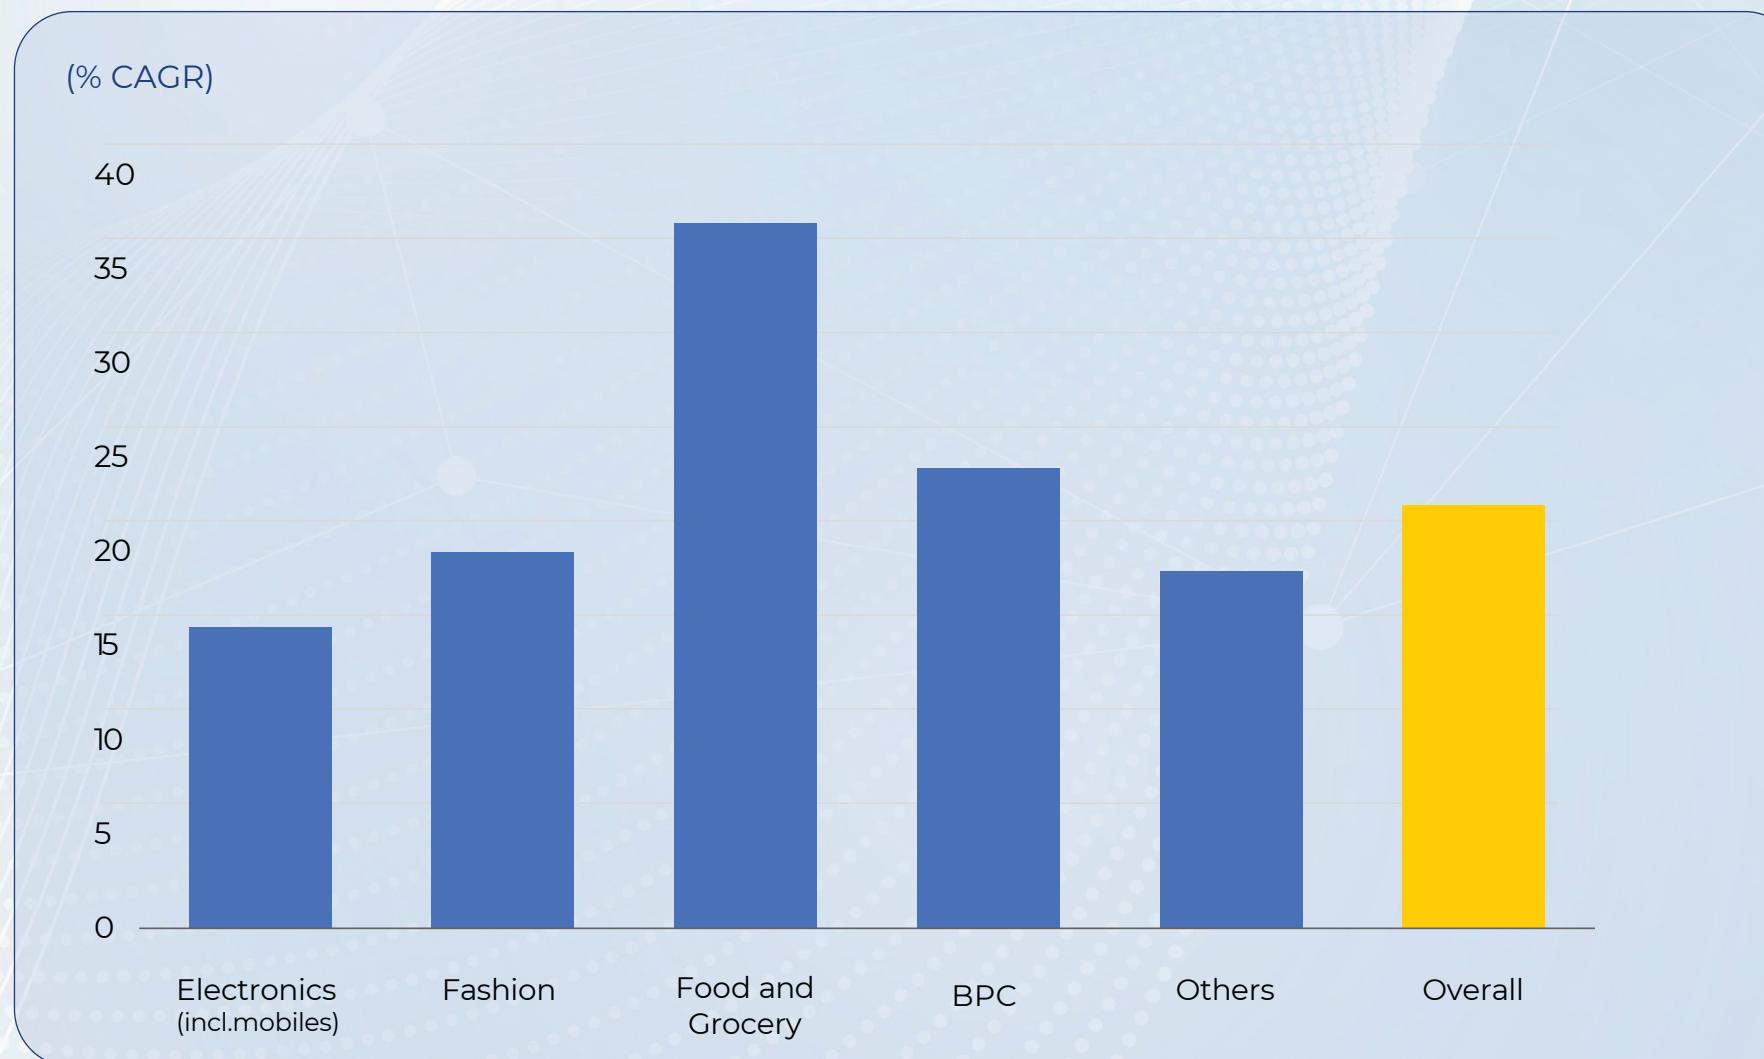

Growth rates

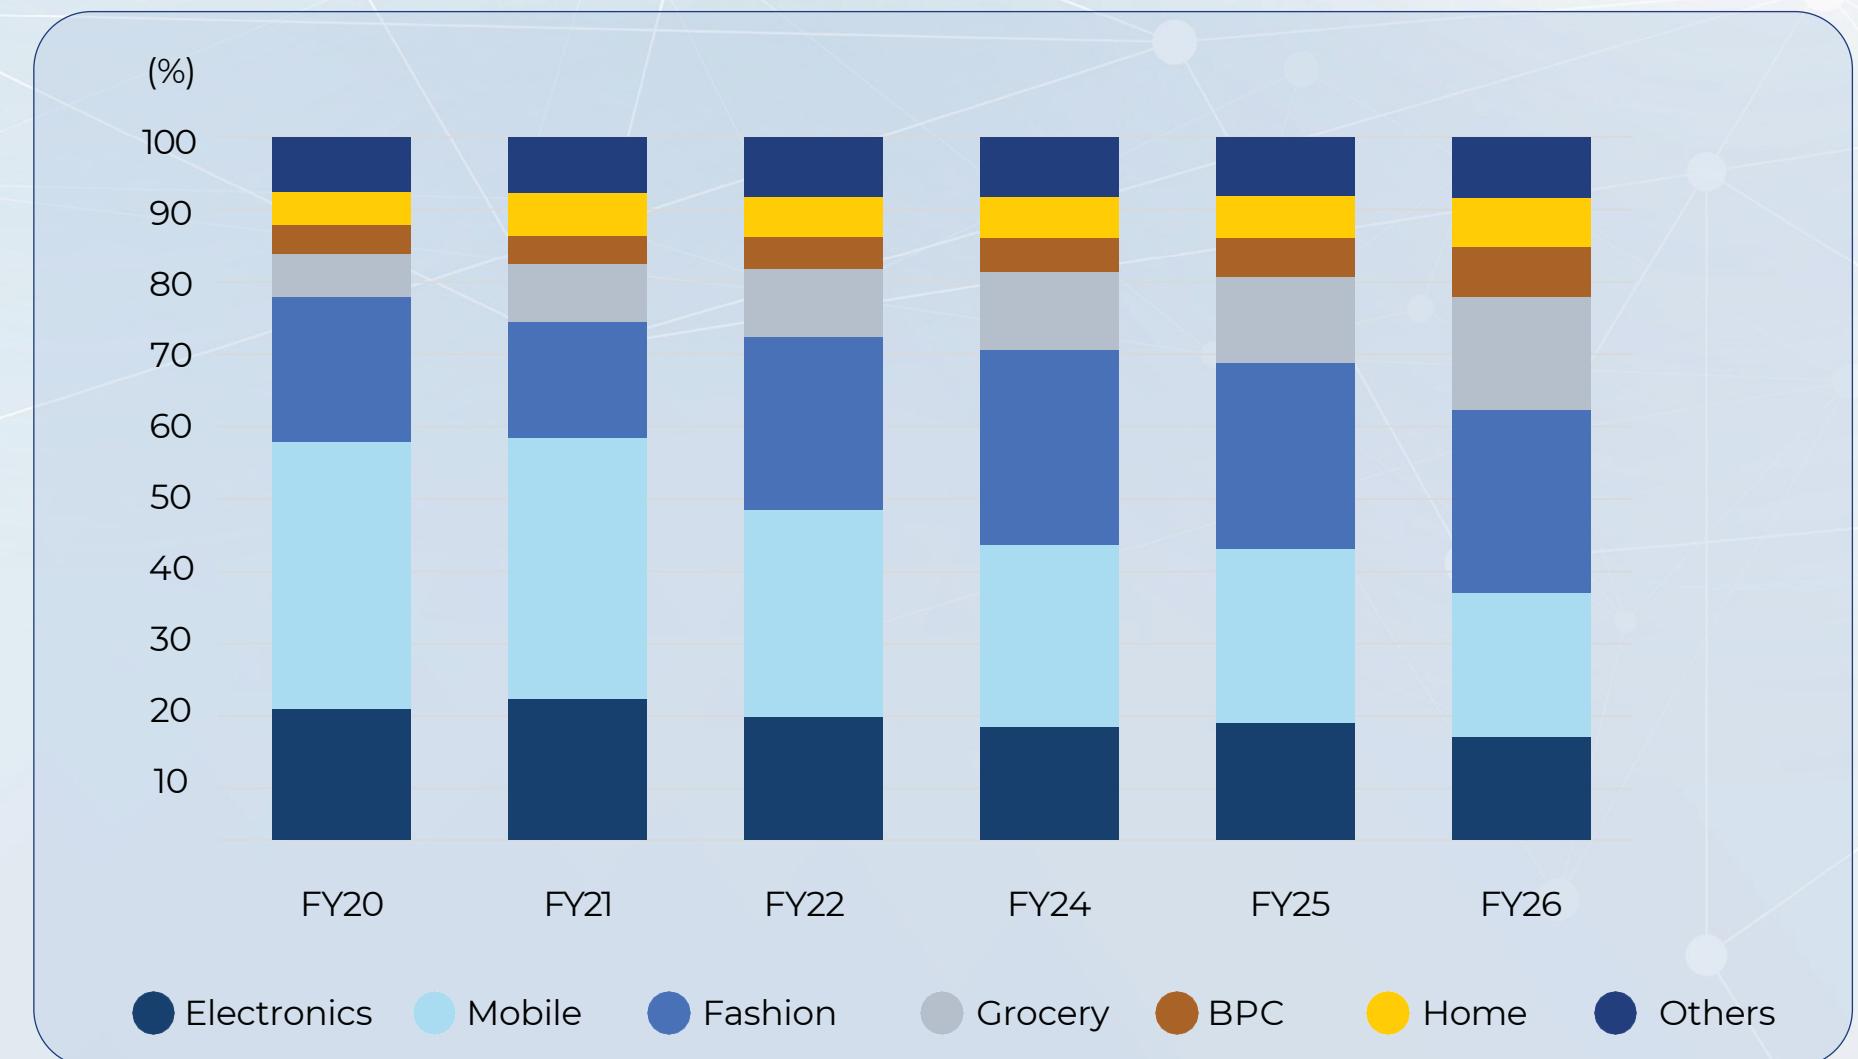

Ecommerce constitutes of nearly half of India's overall consumer internet market and has demonstrated highest channel growth signalling changing consumer behaviour

E - Ecommerce & Qcom - Ecom Gross Merchandise Value (GMV) trend

Food & Grocery expected to grow the fastest led by Qcom

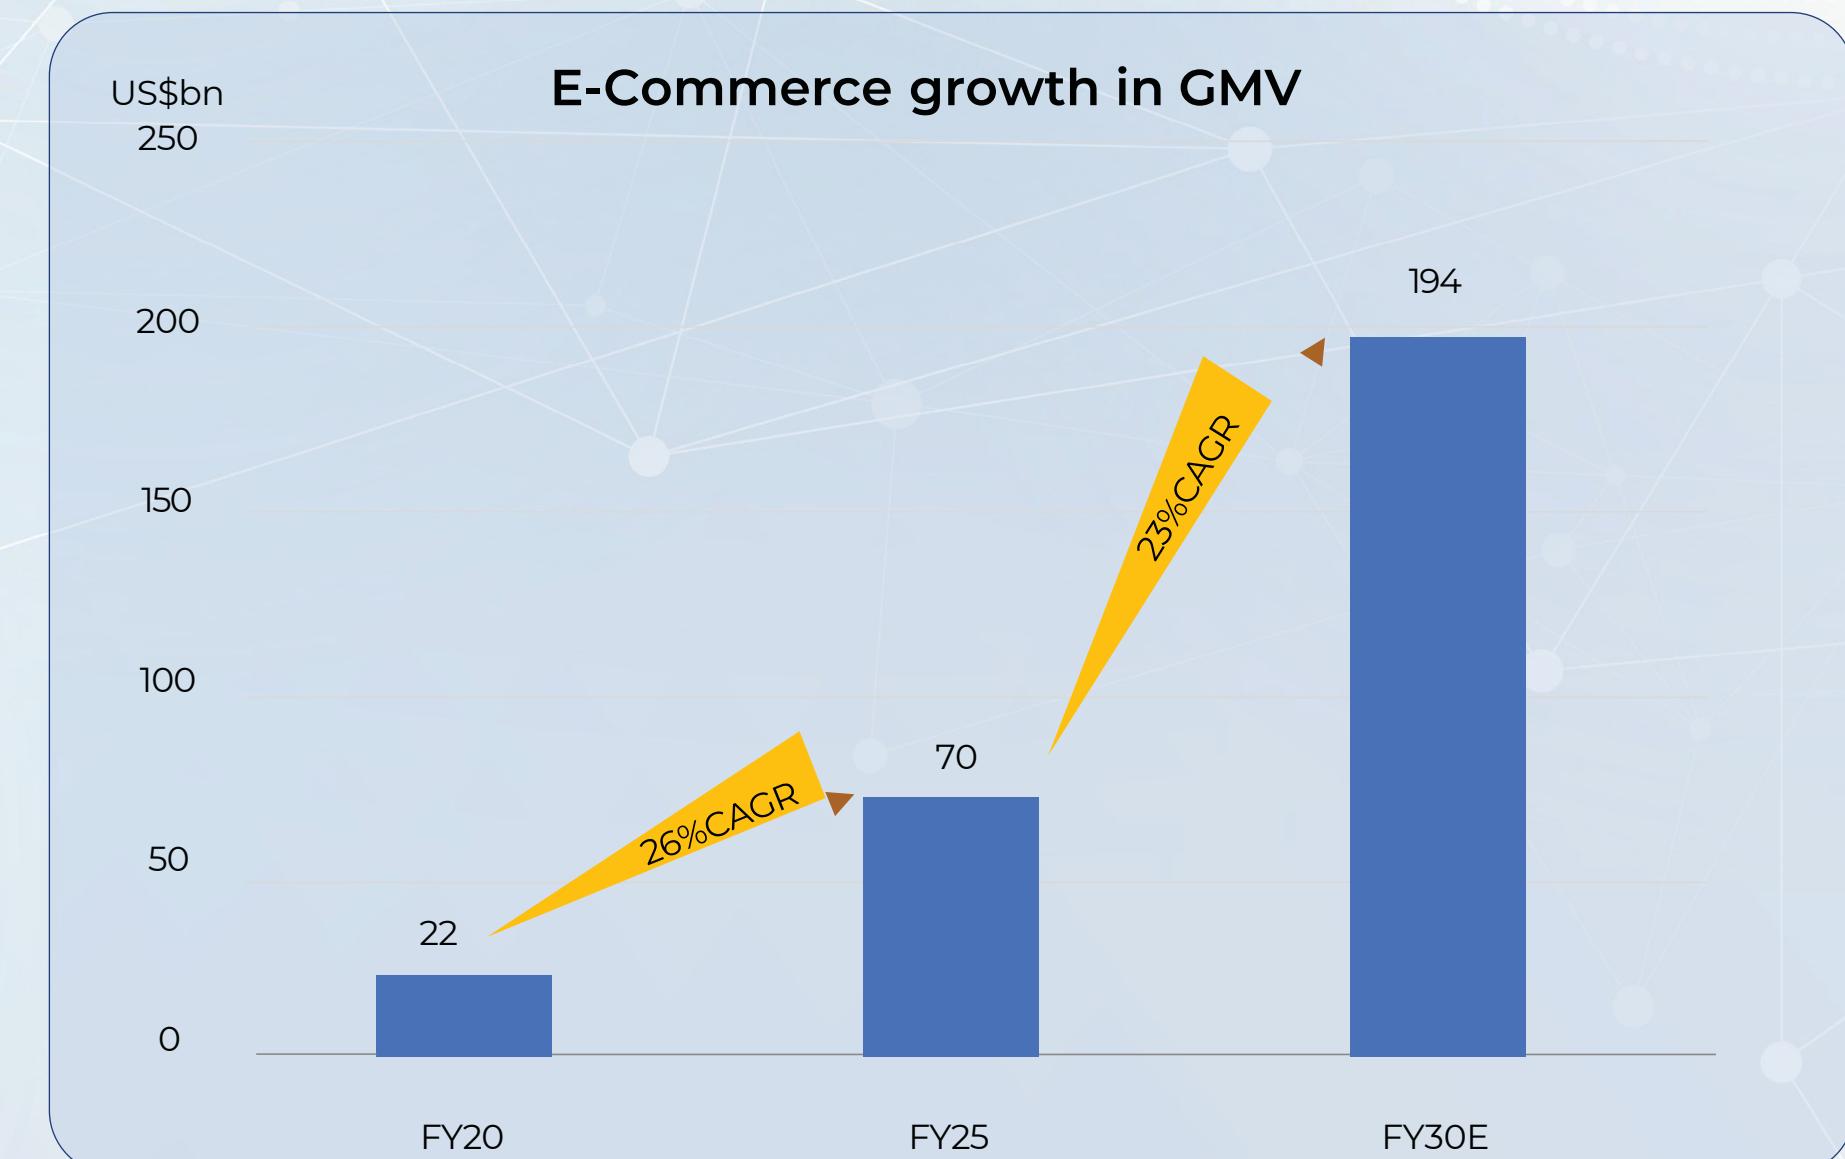

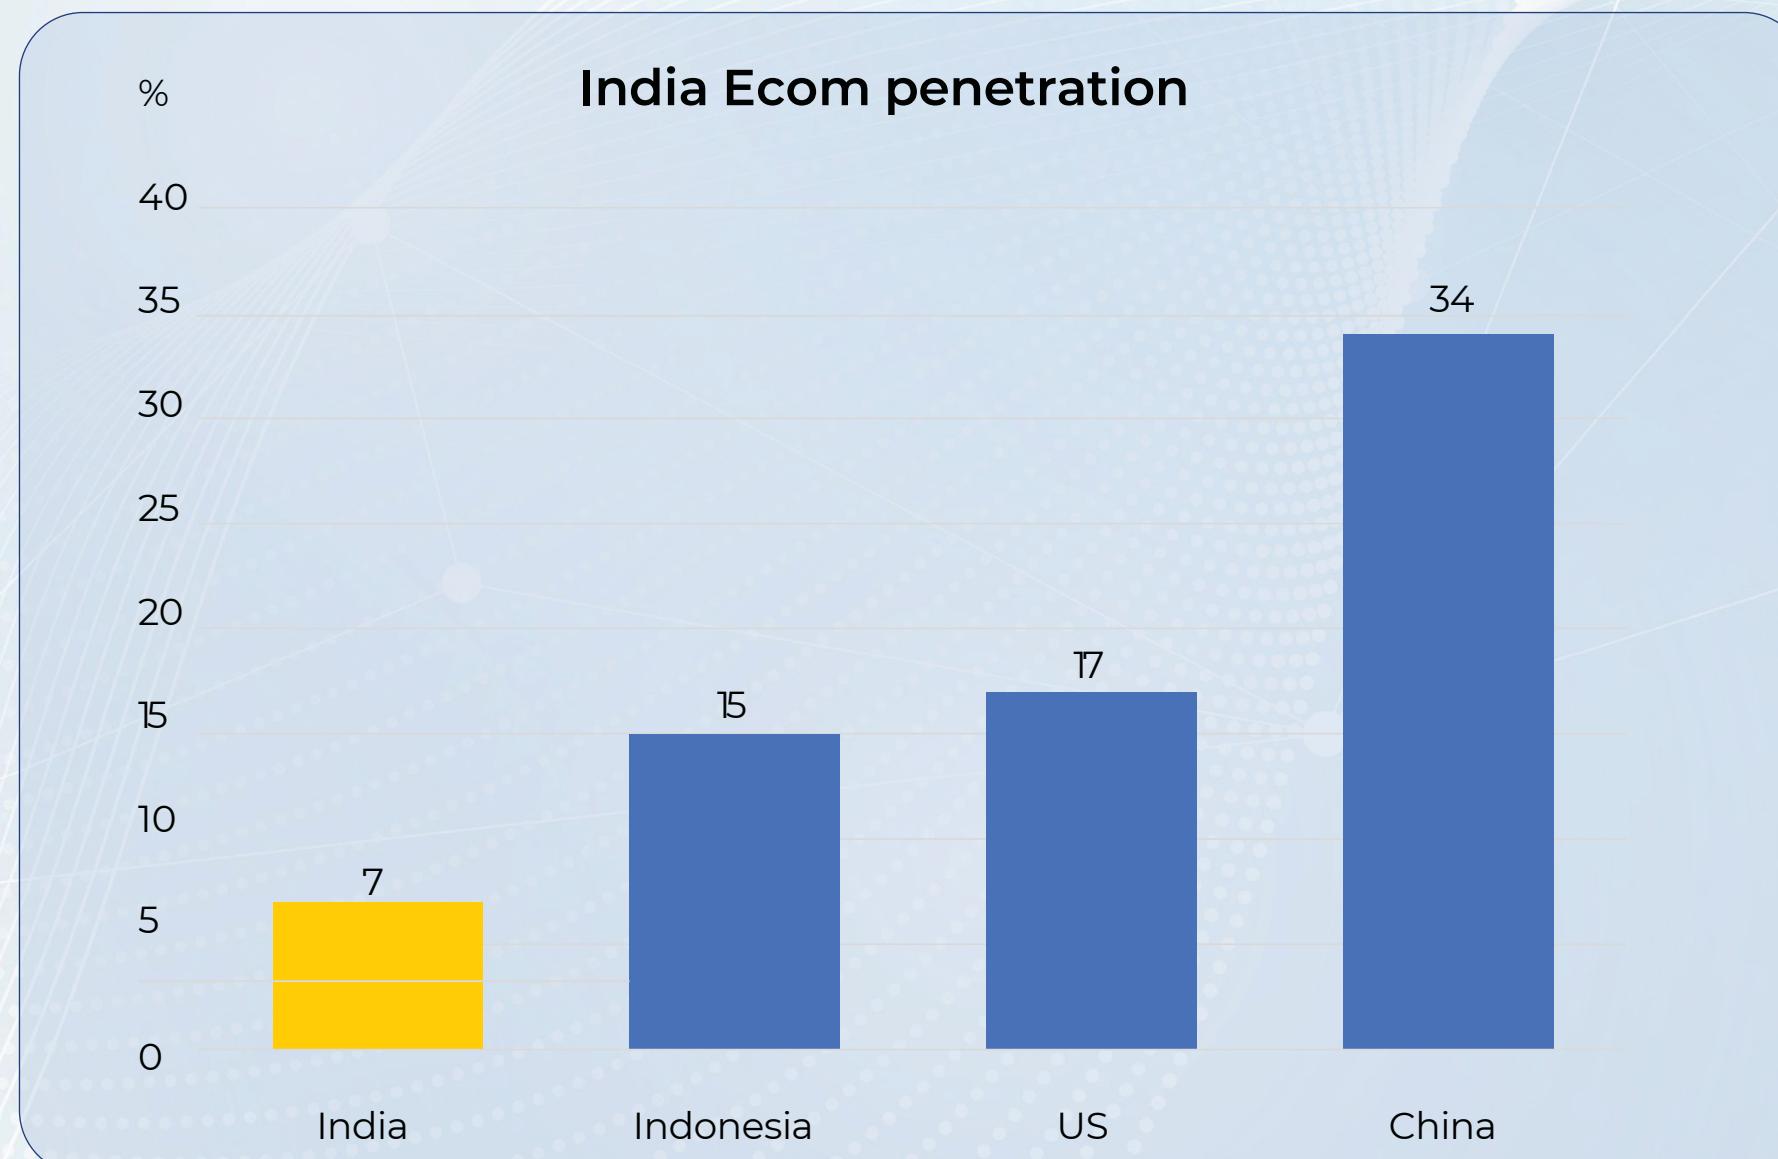

Trend in India's Ecom GMV

Within the Ecom space, Food and Grocery to rise the fastest in the coming years owing to the increased share of grocery led by Qcom over the past 5 years

E - Ecommerce & Qcom - Still large runway for growth

India's e-com penetration is much lower than its global peers; a trend which is expected to change considering the growth in Ecommerce GMV of over 20% CAGR

Why invest in LIC MF Technology Fund

1 Fund intends to invest in companies in the Technology theme which is a core driver of long-term economic growth across all industries

2 Exposure to multiple companies engage in platform businesses, cloud infrastructure, data centres, and automation

3 T.I.D.E. Framework helps to identify diversified businesses which are expected to benefit from Technological advancement

4 Companies with scalable business models which could be potential contributors to India's journey towards Viksit Bharat

5 Market cap agnostic fund providing exposure to innovative companies while managing risk.

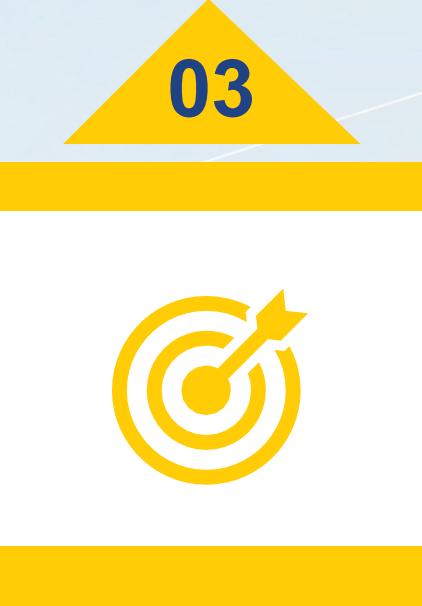

Who should invest in LIC MF Technology Fund

Long-term investors seeking potential capital appreciation from a portfolio of companies invested in Technology space

01

Young / early-stage wealth builders with longer investment horizons

03

Investors seeking high-risk, themed based exposure to companies in the technology space

02

Investors looking for funds complimenting their diversified core equity holdings

05

Investors looking for innovation in exposure beyond traditional sectors

04

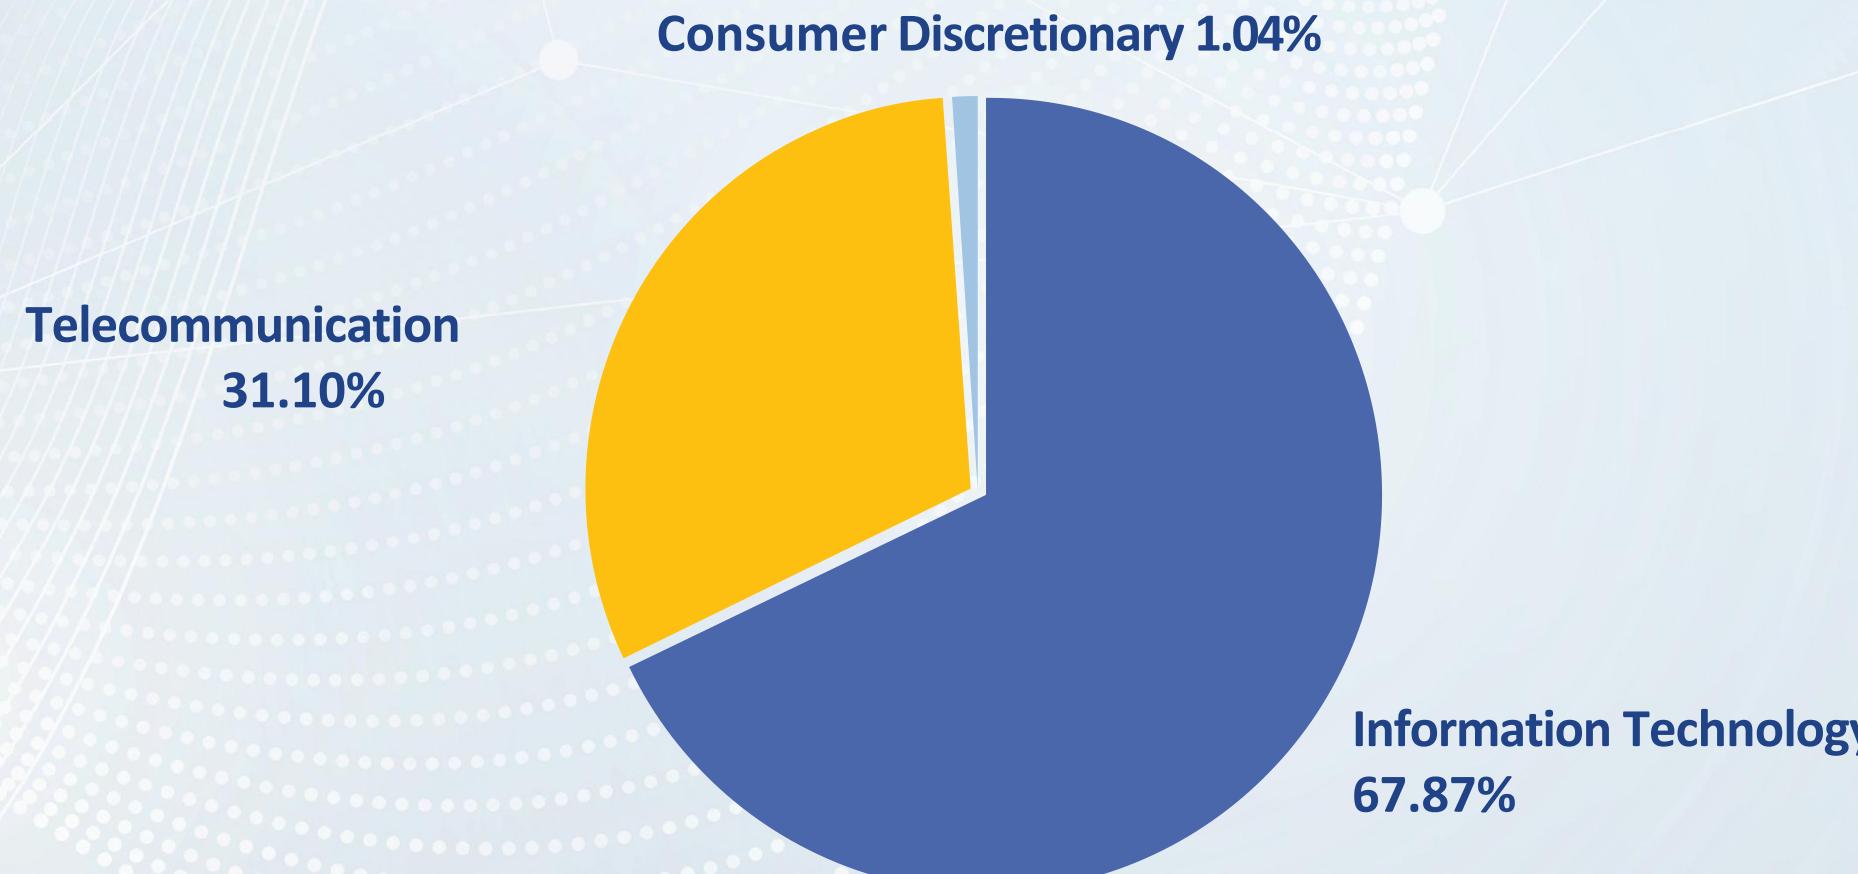

Portfolio Construction Process
